Glossary of Financial Measures and Description of Reportable Business Segments	35
On November 1, 2013, the Company acquired all of the issued and outstanding shares of The Dominion of Canada General Insurance Company (Dominion) f purchase price of approximately \$1.035 billion. The results of operations of the acquired business are reported in the Company's Business and International Insurance segment from the closing date.	
The information included in the Financial Supplement is unaudited. This document should be read in conjunction with the Company's Form 10-Q which will Securities and Exchange Commission.	be filed with the

The Travelers Companies, Inc. Financial Supplement - Second Quarter 2014 Business Realignment

On June 10, 2014, the Company announced a realignment of its management team, effective July 1, 2014, that gave rise to a realignment of two of its three reportable business segments, as follows:

- The Company's International Insurance group, which had previously been included in the Financial, Professional & International Insurance segment, was combined with the Company's previous Business Insurance segment to create a new Business and International Insurance segment.
- The Bond & Financial Products group, which comprised the remaining businesses in the Financial, Professional & International Insurance segment, now comprises the new Bond & Specialty Insurance segment.
- The Personal Insurance segment was not impacted by these changes.

The realignment of segments described above was made to reflect the realignment of the Company's senior management responsibilities and the manner in which the Company's businesses have been managed starting July 1, 2014, and the aggregation of products and services based on the type of customer, how the business is marketed and the manner in which risks are underwritten.

In connection with these changes, the Company has realigned and revised the names of several businesses that comprise the Business and International Insurance segment. The new reportable business segments are as follows:

Business and International Insurance

The Business and International Insurance segment offers a broad array of property and casualty insurance and insurance related services to its clients, primarily in the United States, as well as in Canada, the United Kingdom, the Republic of Ireland and throughout other parts of the world as a corporate member of Lloyd's. Business and International Insurance is organized as follows:

Domestic

- Select Accounts provides small businesses with property and casualty products, including commercial multi-peril, commercial property, general liability, commercial auto and workers' compensation insurance.
- Middle Market provides mid-sized businesses with property and casualty products, including commercial multi-peril, commercial property, general liability, commercial auto and workers' compensation insurance, as well as risk management, claims handling and other services. Middle Market generally provides these products to mid-sized businesses through Commercial Accounts, as well as to targeted industries through Construction, Technology, Public Sector Services and Oil & Gas. Middle Market also provides mono-line umbrella and excess coverage insurance through Excess Casualty and insurance coverages for foreign organizations with United States exposures through Global Partner Services.
- National Accounts provides large companies with casualty products and services, including workers' compensation, general liability and automobile liability, generally utilizing loss-sensitive
 products, on both a bundled and unbundled basis. National Accounts also includes the Company's commercial residual market business, which primarily offers workers' compensation
 products and services to the involuntary market.
- First Party provides traditional and customized property insurance programs to large and mid-sized customers through National Property, insurance for goods in transit and movable objects, as well as builders' risk insurance, through Inland Marine, insurance for the marine transportation industry and related services, as well as other businesses involved in international trade, through Ocean Marine and comprehensive breakdown coverages for equipment, including property and business interruption coverages, through Boiler & Machinery.
- Specialized Distribution markets and underwrites its products to customers predominantly through licensed wholesale agents and program managers that manage customers' unique insurance requirements. Specialized Distribution provides insurance coverage for the commercial transportation industry, as well as commercial liability and commercial property policies for small, difficult to place specialty classes of commercial business primarily on an excess and surplus lines basis, through Northland, and tailored property and casualty programs on an admitted basis for customers with common risk characteristics or coverage requirements through National Programs. Specialized Distribution also serves small to medium-sized agricultural businesses, including farms, ranches, wineries and related operations, through Agribusiness.

i

The Travelers Companies, Inc. Financial Supplement - Second Quarter 2014 Business Realignment (Continued)

International

• International, through its operations in Canada, the United Kingdom and the Republic of Ireland, offers property and casualty insurance and risk management services to several customer groups, including, among others, those in the technology, public services, and financial and professional services industry sectors. In addition, International markets personal lines and small commercial insurance business in Canada through The Dominion of Canada General Insurance Company (Dominion), which the Company acquired on November 1, 2013. International, through its Lloyd's syndicate (Syndicate 5000), for which the Company provides 100% of the capital, underwrites five principal businesses — marine, global property, accident & special risks, power & utilities and aviation.

International also inloudes the Company's 49.5% ownership of the common stock of J. Malucelli Participações em Seguros e Resseguros S.A. (JMalucelli), its joint venture in Brazil. JMalucelli is currently the market leader in surety in Brazil based on market share. JMalucelli commenced writing other property and casualty insurance business in 2012. The Company's investment in JMalucelli is accounted for using the equity method and is included in "other investments" on the consolidated balance sheet.

Business and International Insurance also includes the Specialty Liability Group (which manages the Company's asbestos and environmental liabilities) and the assumed reinsurance and certain other runoff operations, which are collectively referred to as Business and International Insurance Other.

Bond & Specialty Insurance

The Bond & Specialty Insurance segment provides a wide range of customers with bond and insurance products and risk management services. The range of coverages includes performance, payment and commercial surety and fidelity bonds for construction and general commercial enterprises; management liability coverages for losses caused by the actual or alleged negligence or misconduct of directors and officers or employee dishonesty; employment practices liability coverages and fiduciary coverages for public corporations, private companies and not-for-profit organizations; professional liability coverage for actual or alleged errors and omissions committed in the course of professional conduct or practice for a variety of professionals including, among others, lawyers and design professionals; and professional and management liability, property, workers' compensation, auto and general liability and fidelity insurance for financial institutions. The surety and financial liability coverages provided by Bond & Specialty Insurance primarily use credit-based underwriting processes.

(239)
4,468
1,897
3,348
\$ 9,713

(i) The Company's top five reinsurer groups, including retroactive reinsurance, included in net reinsurance recoverables is as follows:

	A.M. Best Rating of Group's	
Reinsurer	Predominant Reinsurer	
Munich Re Group	A+ second highest of 16 ratings	
Swiss Re Group	A+ second highest of 16 ratings	
NKSJ Holdings Inc Group	A+ second highest of 16 ratings	
Berkshire Hathaway	A++ highest of 16 ratings	
XL Capital Group	A third highest of 16 ratings	

The gross reinsurance recoverables on paid and unpaid claims and claim adjustment expenses represent the current and estimated future amounts due from reinsurers on known and incurred but not reported claims. The ceded reserves are estimated in a manner consistent with the underlying direct and assumed reserves. Although this total comprises recoverables due from nearly one thousand different reinsurance entities, about half is attributable to 10 reinsurer groups.

The net reinsurance recoverables reflect an allowance for uncollectible reinsurance that is based upon the Company's ongoing review of amounts outstanding, reinsurer solvency, the Company's experience, current economic conditions, and other relevant factors. Of the total net recoverables due from reinsurers at June 30, 2014, after deducting mandatory pools and associations and structured settlement balances, \$3.4 billion, or 79%, were rated by A.M. Best Company. Of the total rated by A.M. Best Company, 99% were rated A- or better. The remaining 21% of net recoverables from reinsurers were comprised of the following: 6% related to the Company's participation in voluntary pools, 11% related to recoverables from captive insurance companies and 4% were balances from other companies not rated by A.M. Best Company. In addition, \$1.2 billion of the net recoverables were collateralized by letters of credit, funds held or trust agreements at June 30, 2014.

- (ii) The mandatory pools and associations represent various involuntary assigned risk pools that the Company is required to participate in. These pools principally involve workers' compensation and automobile insurance, which provide various insurance coverages to insureds that otherwise are unable to purchase coverage in the open market. The costs of these mandatory pools in most states are usually charged back to the participating members in proportion to voluntary writings of related business in that state. In the event that a member of the pool becomes insolvent, the remaining members assume an additional pro rata share of the pool's liabilities. Recoverables due from the National Flood Insurance Program are included with mandatory pools.
- (iii) Included in reinsurance recoverables are certain amounts related to structured settlements, which comprise annuities purchased from various life insurance companies to settle certain personal physical injury claims, of which workers' compensation claims comprise a significant portion. In cases where the Company did not receive a release from the claimant, the amount due from the life insurance company related to the structured settlement is included in the Company's consolidated balance sheet as a liability and as a reinsurance recoverable, as the Company retains the contingent liability to pay the claimant in the event that the life insurance company fails to make the required annuity payments. The Company would be required to make such payments, to the extent the purchased annuities are not covered by state guaranty associations.

The Company's top five groups by structured settlement is as follows:

	A.M. Best Rating of Group's						
Group	Predominant Insurer		20	014			
Fidelity and Guaranty Life	B++ fifth highest of 16 ratings		\$	949			
Metlife	A+ second highest of 16 ratings			446			
Genworth Financial Group	A third highest of 16 ratings			418			
John Hancock Group	A+ second highest of 16 ratings			253			
Symetra Financial Corporation	A third highest of 16 ratings			245

Glossary of Financial Measures and Description of Reportable Business Segments

The following measures are used by the Company's management to evaluate financial performance against historical results and establish targets on a consolidated basis. In some cases, these measures are considered non-GAAP financial measures under applicable SEC rules because they are not displayed as separate line items in the consolidated financial statements or are not required to be disclosed in the notes to financial statements or, in some cases, include or exclude certain items not ordinarily included or excluded in the most comparable GAAP financial measure.

In the opinion of the Company's management, a discussion of these measures provides investors, francial analysts, rating agents and other standard statement of the significant fundamental discussion of the significant fundamental fund

Some of these measures exclude net realized investment gains (losses), net of tax, and/or net unrealized investment gains (losses), net of tax, which can be significantly impacted by both discretionary and other economic factors and are not necessarily indicative of operation tender.

Other companies may calculate these measures differently, and, therefore, their measures may not be comparable to those used by the Company's management.

Operating income (loss) is net income (loss) excluding the after-tax impact of net realized investment gains (losses). Management uses operating income (loss) to analyze each segment's performance and as a tool in making business decisions. Financial statement users also consider operating income when analyzing the results and trends of insurance companies. Operating earnings (loss) per share is operating income (loss) on a per common share basis.

Average shareholders' equity is (a) the sum of total shareholders' equity at the beginning and end of each of the quarters for the period presented divided by (b) the number of quarters in the period presented times two. Adjusted shareholders' equity is shareholders' equity excluding net unrealized investment gains (losses), net of tax, and net realized investment gains (losses), net of tax, for all quarters in cluded in the calculation that quarter shareholders' equity is average shareholders' equity is

Return on equity is the ratio of annualized net income (loss) to average shareholders' equity for the periods presented. Operating return on equity is the ratio of annualized operating income (loss) to adjusted average shareholders' equity for the periods presented. In the opinion of the Company's management, these are important indicators of how well management creates value for its shareholders through its operating activities and its capital management.

Underwriting gain (loss) is net earned premiums and fee income less claims and claim adjustment expenses and insurance-related expenses. In the opinion of the Company's management, it is important to measure the profitability of each segment excluding the results of investing activities, which are managed separately from the insurance business. This measure is used to assess each segment by business performance and as a tool in making business decisions.

A catastrophe is a severe loss, resulting from natural and man-made events, including risks such as fire, earthquake, windstorm, explosion, terrorism and other similar events. Each catastrophe has unique characteristics, and catastrophes are not predictable as to intensing or amount. Their effects are included in note and operating income and claims and claims adjustment expense reserves upon occurrence. A catastrophe may result in the payment of reinsurance reinsurance instancement premises and assessments from various pools. In the opinion of the Company's management, a discussion of the impact of catastrophes is meaningful to users of the financial statements to understand the Company's periodic earnings and the variability in periodic earnings caused by the unpredictable nature of

Net favorable (unfavorable) prior year loss reserve development is the increase or decrease in incurred claims and claim adjustment expenses as a result of the re-estimation of claims and claim adjustment expense reserves at successive valuation dates for a given group of claims, which may be related to one or more prior years. In the opinion of the Company's management, a discussion of loss reserve development is meaningful to users of the financial statements as it allows them to assess the impact between prior and current year development on incurred claims and claim adjustment expenses exerve levels from period to period.

Combined ratio For Statutory Accounting Practices (SAP), the combined ratio is the sum of the SAP loss and LAE ratio and the SAP underwriting expense ratio as defined in the statutory financial statements required by insurance regulators. The combined ratio, as used in this financial supplement, is the equivalent of, and is calculated in the same manner as, the SAP combined ratio except that the SAP underwriting expense ratio is based on net written premium and the underwriting expense ratio is used in this financial supplement is sate of net exame premiums. For SAP, the loss and LAE ratio as used in this financial supplements required by insurance regulators. The loss and LAE ratio as used in this financial supplement is calculated in the same manner as the SAP ratio. For SAP, the underwriting expense ratio is the ratio of underwriting expenses incurred (including commissions paid), less certain administrative services fee income and billing and policy fees, to net expense required by insurance regulators. The underwriting expenses ratio as used in this financial supplement, is the ratio of underwriting expense ratio as used in this financial supplement, is the ratio of underwriting expense ratio as used in this financial supplement, is the ratio of underwriting expense ratio as used in this financial supplement, is the ratio of underwriting expense ratio as used in this financial supplement, is the ratio of underwriting expense ratio as used in this financial supplement, is the ratio of underwriting expense ratio as used in this financial supplement, is the ratio of underwriting expense ratio as used in this financial supplement, is the ratio of underwriting expense ratio as used in this financial supplement, is the ratio of underwriting expense ratio as used in this financial supplement, is the ratio of underwriting expense ratio as used in this financial supplement.

The combined ratio, loss and LAE ratio, and underwriting expense ratio are used as indicators of the Company's underwriting discipline, efficiency in acquiring and servicing its business and overall underwriting profitability. A combined ratio under 100% generally indicates an underwriting profit. A combined ratio over 100% generally indicates an underwriting loss.

Other companies' method of computing similarly titled measures may not be comparable to the Company's method of computing these ratios.

Combined ratio excluding the incremental impact of the direct to consumer initiative is the combined ratio adjusted to exclude the direct, variable impact of the Company's direct-to-consumer initiative in Personal Insurance. In the opinion of the Company's management, this is useful in an analysis of the profitability of the Company's ongoing agency business.

Gross written premiums reflect the direct and assumed contractually determined amounts charged to policyholders for the effective period of the contract based on the terms and conditions of the insurance contract. Net written premiums reflect gross written premiums less premiums ceded to reinsurers.

Book value per share is total common shareholders' equity divided by the number of common shares outstanding. Adjusted book value per share is total common shareholders' equity excluding the after-tax impact of net unrealized investment gains and losses, divided by the number of common shares outstanding. In the opinion of the Company's management, adjusted book value is useful in an analysis of a property casualty company's book value as it removes the effect of changing prices on invested assets, (i.e., net unrealized investment gains (assess), net of tax), which do not have an equivalent investment or part of the property of th

Total capital is the sum of total shareholders' equity and debt. Debt-to-capital ratio excluding net unrealized gain (loss) on investments is the ratio of debt to total capital excluding the after-tax impact of net unrealized investment gains and losses. In the opinion of the Company's management, the debt to capital ratio is useful in an analysis of the Company's financial leverage.

Statutory basis surplus represents the excess of an insurance company's assets over its liabilities in accordance with statutory accounting practices.
