Travelers Strengthens Renewable Energy Team With Two Senior Hires

LONDON, 27 November 2018 – The Travelers Companies, Inc. (NYSE: [TRV](#)) today announced it has made two key appointments to its Lloyd's Syndicate 5000 Renewable Energy team: Jonny Allen has joined as Senior Underwriter and Head of Offshore Renewables, and Charlie Richardson has been appointed Senior Underwriter and Head of Onshore Renewables.

Allen began his underwriting career as an onshore renewables specialist in the London insurance market following a short engineering career in upstream energy. In 2013, he moved to GCube Underwriting to support the offshore renewables portfolio, becoming Head of Offshore Wind in 2015. Allen will be responsible for the Travelers offshore wind book of business in the company's syndicate at Lloyd's. He also chairs the European Wind Turbine Committee and represents the syndicate at a number of renewable market groups.

Richardson has more than 18 years of experience in the insurance industry. Most recently, he led the wind and solar underwriting book at GCube Underwriting. There, he also helped develop the firm's emerging market operations. In his role with the Travelers syndicate at Lloyd's, Richardson will focus on the onshore renewable energy segment, including the onshore wind and solar power industries.

Travelers Syndicate at Lloyd's works closely with Travelers' U.S.-based Renewable Energy team to deliver one solution to agents and brokers worldwide, leveraging the company's extensive capabilities, including underwriting, risk management and claims expertise. Travelers has served the energy industry for over a century, with more than 25 years of experience focusing on renewable energy.
