NOTES TO FINANCIAL STATEMENTS**1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES**

- A. The Standard Fire Insurance Company (the Company) prepares its statutory financial statements in conformity with accounting practices prescribed or permitted by the State of Connecticut. The State of Connecticut requires that insurance companies domiciled in Connecticut prepare their statutory basis financial statements in accordance with the National Association of Insurance Commissioners (NAIC) *Accounting Practices and Procedures Manual*, subject to any deviations prescribed or permitted by the Connecticut Insurance Commissioner. The Company has not applied for and does not believe that it employs any statutory accounting practices that would be considered a permitted practice in its financial statements.

- B. The preparation of financial statements requires management to make estimates and assumptions that affect the reported amounts of certain assets and liabilities and disclosure of contingent liabilities at the date of the financial statements and the reported amounts of revenue and losses and expenses during the reporting period. Actual results could differ from those estimates.
- C. Certain assets designated as nonadmitted are excluded from the statutory balance sheet and changes in such amounts are charged or credited directly to unassigned funds, a component of surplus as regards policyholders (policyholders' surplus). The costs of acquiring both new and renewal insurance business are charged to income as incurred. Premiums are recognized as revenues pro rata over the policy period. Unearned premium reserves represent the unexpired portion of policy premiums, net of reinsurance. Reserves for losses, loss adjustment expenses (LAE) and unearned premiums ceded to reinsurers have been reported as reductions of the related reserves. Amounts recoverable from reinsurers are estimated in a manner consistent with the loss liability associated with the reinsured business. A liability is established for unsecured, unauthorized reinsurance and overdue authorized reinsurance recoverables.

The provision for federal income taxes is comprised of two components, current income taxes and deferred income taxes. Deferred federal income taxes arise from changes during the year in cumulative temporary differences between the statutory basis and tax basis of assets and liabilities.

Invested assets are valued according to statutory requirements and the bases of valuation adopted by the NAIC.

Short-term investments are stated at amortized cost and consist of investments with remaining maturities of one year or less at the time of acquisition, excluding those investments classified as cash equivalents.

Cash equivalents consist of short-term, highly liquid investments with original maturities of three months or less.

Bonds are generally stated at amortized cost, except bonds that are defined by the NAIC as non-investment grade (NAIC Class 3-6) which are stated at the lower of amortized cost or NAIC fair value. Amortization is calculated using the constant yield method.

Common stocks of non-affiliates are stated at NAIC fair value.

Loan-backed and structured securities are amortized using the retrospective method, except for securities that have incurred a decline in fair value that is other-than-temporary which are amortized using the prospective method. The effective yield used to determine amortization is calculated based on actual historical and projected future cash flows, which are obtained from a nationally recognized securities data provider.

Investments in subsidiaries and affiliated entities are based on the net worth of the entity, determined in accordance with statutory accounting valuation methods. Dividends received from subsidiaries are recorded as net investment income and undistributed net income is recorded as net unrealized capital gains (losses).

The Company's investments in partnerships, joint ventures and limited liability companies are reported using the equity method of accounting, determined in accordance with statutory accounting valuation methods. Distributions of accumulated earnings received from these investments are recorded as net investment income and undistributed net income is recorded as net unrealized capital gains (losses).

The Company utilizes anticipated investment income as a factor in the premium deficiency calculation.

Property-casualty reserves are established for loss and LAE and represent management's estimate of the ultimate cost of all unpaid reported and unreported claims incurred and related expenses. In establishing loss and LAE reserves, the Company also takes into account estimated recoveries, reinsurance, salvage and subrogation. The loss and LAE reserves are reviewed regularly by qualified actuaries employed by the Company. The Company continually refines its loss and LAE reserve estimates in a regular ongoing process as historical loss experience develops and additional claims are reported and settled. Because establishment of loss and LAE reserves is an inherently uncertain process involving estimates, currently established reserves may change. The Company reflects adjustments to loss and LAE reserves in the period in which the estimates are changed. Such changes in estimates could occur in a future period and may be material to the Company's net income in such period. For a discussion of loss and LAE reserves related to asbestos and environmental reserves, see Note 33.

The Company has not modified its accounting policy regarding the capitalization of fixed assets from the prior period.

2. ACCOUNTING CHANGES AND CORRECTIONS OF ERRORS

The Company had no material changes in accounting principles or material corrections of errors during 2014.

NOTES TO FINANCIAL STATEMENTS**5. INVESTMENTS****A. Mortgage Loans:**

Not applicable.

B. Debt Restructuring:

Not applicable.

C. Reverse Mortgages:

Not applicable.

D. Loan-Backed Securities:

1. The Company applies the retrospective method of revaluing loan-backed securities. The Company's loan-backed securities are revalued quarterly using the constant effective yield method which includes an adjustment for estimated principal pre-payments, if any. The effective yield used to determine amortization for these securities is recalculated and adjusted periodically based upon actual historical and/or projected future cash flows. The Company changes from the retrospective to prospective method for valuing the securities when an other-than-temporary impairment has been recorded.

For collateralized mortgage obligations, asset-backed securities and pass-through certificates prepayment assumptions are adjusted periodically.

When unit prices published by the Securities Valuation Office were not available, the Company uses a nationally recognized pricing service, as well as broker quotes in determining the fair value of its loan-backed securities.

2. Not applicable.
3. The Company had no loan-backed or structured securities with other-than-temporary impairments recognized in 2014.
4. The gross unrealized investment losses and related fair value for impaired securities for which an other-than-temporary impairment has not been recognized as a realized loss were as follows:

a. The aggregate amount of unrealized losses:

1. Less than 12 Months	\$ 15,660
2. 12 Months or Longer	\$ -

b. The aggregate related fair values of securities with unrealized losses:

1. Less than 12 Months	\$9,881,729
2. 12 Months or Longer	\$ -

5. The Company determines an other-than-temporary impairment by utilizing discounted cash flow modeling to determine the present value of the security and comparing the present value with the amortized cost of the security. If the amortized cost is greater than the present value of the expected cash flows, the difference is considered a credit loss and recognized in net realized investment gains (losses). The Company estimates the present value of the security by projecting future cash flows of the assets underlying the securitization, allocating the flows to the various tranches based on the structure of the securitization, and determining the present value of the cash flows using the effective yield of the security at the date of acquisition (or the most recent implied rate used to accrete the security if the implied rate has changed as a result of a previous impairment or changes in expected cash flows). The Company incorporates levels of delinquencies, defaults and severities as well as credit attributes of the remaining assets in the securitization, along with other economic data, to arrive at its best estimate of the parameters applied to the assets underlying the securitization.

E. Repurchase Agreements and/or Securities Lending Transactions:

1. The Company requires collateral equal to at least 102% of the market value of the loaned security plus accrued interest. The Company accepts only cash as collateral for securities on loan and restricts the manner in which that cash is invested to U.S. Treasury securities and U.S. Treasury repurchase agreements.

G. Investments in Low-Income Housing Tax Credits (LIHTC):

The Company has investments in certain state sponsored LIHTC properties. The state sponsored LIHTC property investments primarily generate premium tax credits which allow the Company to offset premium taxes in Georgia and are projected to be available through 2021. As of December 31, 2014, there were no unfunded commitments related to these LIHTC.

Management of the Company is not aware of any of the LIHTC investments and related properties being the subject of any state regulatory reviews.

Current LIHTC investments do not exceed 10% of the Company's total net admitted assets.

6. JOINT VENTURES, PARTNERSHIPS AND LIMITED LIABILITY COMPANIES**A. Not applicable.**

B. Joint ventures, partnerships, and limited liability companies are recorded on a lag basis with changes in the Company's proportional share of equity recorded as an unrealized gain (loss), subject to testing for possible impairment. As part of the impairment testing process, the Company evaluates those assets for other-than-temporary impairments using financial information that is received from the respective joint venture, partnership, or limited liability company. The Company concluded that some of the aforementioned assets, as a result of deteriorating economic conditions, had other-than-temporary impairments and recorded a realized loss of \$58,553 with an offsetting entry to change in net unrealized capital gains or (losses). There was no impact to policyholders' surplus as the change in net unrealized capital gains or (losses) was offset by the realized loss of the same amount.

7. INVESTMENT INCOME**A** Policyholders' surplus excludes due and accrued investment income if amounts are over 90 days past due.**B.** At December 31, 2014, the Company had no accrued investment income over 90 days past due.**8. DERIVATIVE INSTRUMENTS**

E. 1. The Company has no net operating loss carryforward available for tax purposes.

2. The Company has \$61,902,951, \$53,259,531, and \$0 of federal income tax from the current and prior tax years respectively, available for recoupment in the event of future losses.

3. The reporting entity has no protective tax deposits with the Internal Revenue Service under Section 6603 of the Internal Revenue Service Code.

F. 1. The Company is included in a consolidated federal income tax return with its ultimate parent company, The Travelers Companies, Inc. (TRV). A list of the entities included with the Company in a consolidated federal income tax return filing is attached.

NOTES TO FINANCIAL STATEMENTS

2. The Company is a party to a tax allocation agreement that sets forth the manner in which total consolidated federal income tax is allocated among companies included in the consolidated return. Member companies included in the TRV consolidated return are allocated taxes annually based upon their separate taxable income. Companies with a current federal income tax receivable from TRV will receive settlement to the extent that such receivables are for tax benefits that have been utilized in the consolidated federal income tax return. Member companies are reimbursed by TRV in the event the Internal Revenue Service levies upon a member's assets for unpaid taxes in excess of the amount specifically allocated to a member.

In the event that the consolidated group develops an Alternative Minimum Tax (AMT), each company with an AMT on a separate company basis will be allocated a portion of the consolidated AMT. Settlement of the AMT will be made in the same manner and timing as the regular federal income tax.

- G. The Company does not believe it is reasonably possible that the liability related to any federal or foreign tax loss contingencies may significantly increase within the next 12 months.

10. INFORMATION CONCERNING PARENT, SUBSIDIARIES, AFFILIATES AND OTHER RELATED PARTIES

- A-C. (1) On June 30 and September 30, 2014 the Company made capital contributions of \$21,244,500 and \$900,000, respectively, to its wholly-owned subsidiary, Oregon Evergreen Investors I LLC.

Schedule Y - Part 2 summarizes the net flow of funds among affiliates for various types of transactions between affiliates. Regulatory prior approval and/or prior notification has been satisfied for any transaction requiring such action.

The following are general business arrangements that result in or are used for transactions with affiliates in the normal course of business:

1. The principal banking functions for the property-casualty operations of TRV and some or all of its affiliated property-casualty insurance companies are handled by The Travelers Indemnity Company (Indemnity). Settlements between the companies are made at least monthly.
2. TRV maintains a private short-term investment pool, known as the Travelers Money Market Liquidity Pool (TRVMMLP), in which affiliated companies may participate. This pool is managed by Indemnity. Each company may convert its position in the pool into cash at any time and may also use its position in the pool to settle transactions with other affiliated participants in the pool. The position of each company in the pool is calculated and adjusted daily. Each participating insurance company carries its share of the pool as a short-term investment in Schedule DA. At December 31, 2014 and 2013, the TRVMMLP totaled \$4.5 billion and \$3.5 billion, respectively.

- D. (1) At December 31, 2014 and 2013, the Company had \$33,617,227 and \$21,879,595 receivable from affiliates, respectively. Accounts between and among the Company and its affiliates are settled on a daily basis through the TRVMMLP or cash. Any items open at the end of the month are settled in the following month.

- (2) The Company participates in an intercompany reinsurance pooling agreement as described in Note 26. The following represents the unsettled balances resulting from affiliated reinsurance that are reported in the respective balance sheet accounts:

	<u>December 31, 2014</u>	<u>December 31, 2013</u>
Amounts recoverable from reinsurers	\$ 78,432,229	\$ 58,063,988
Reinsurance payable on paid losses and loss adjustment expenses	54,140,226	53,600,071
Ceded reinsurance premiums payable	39,869,686	9,823,046

These balances were settled net through the intercompany settlement process during January 2015 and January 2014, respectively.

- E. The Company has not provided any guarantees for the benefit of an affiliate which would result in a material contingent exposure for the Company or any affiliated insurer's assets to liabilities.

- F. Material management or service contracts and cost sharing arrangements, involving the Company or any affiliate, other than cost allocation arrangements:

TYPE OF CONTRACT AND DESCRIPTION	SERVICING COMPANY	OTHER PARTY
Expense Allocation	The Travelers Indemnity Company	Travelers P&C ¹
Reinsurance Allocation	The Travelers Indemnity Company	Travelers P&C ¹

¹ "Travelers P&C" includes The Travelers Indemnity Company and some or all of its insurance subsidiaries and affiliates.

- G. All of the issued and outstanding common stock of the Company is owned by Travelers Insurance Group Holdings Inc. (TIGHI), which in turn is indirectly owned by TRV, a publicly traded insurance holding company, the organization of which is shown in Schedule Y - Part 1.

NOTES TO FINANCIAL STATEMENTS

E. Defined Contribution Plans:

Not applicable.

F. Multiemployer Plans:

Not applicable.

G. Consolidated/Holding Company Plans:

1. Employee Retirement Plans:

The Company participates in a qualified noncontributory defined benefit pension plan sponsored by TRV that provides benefits, primarily under a cash balance formula, for substantially all employees of the Company and its property-casualty affiliates. In addition the Company participates in nonqualified defined benefit pension plans sponsored by TRV which cover certain highly-compensated employees of the Company and its property-casualty affiliates. The Company has no legal obligation for benefits under these plans. The Company is charged for its allocable share of pension expense for these plans based on its allocated and/or direct salary costs in accordance with an expense allocation agreement. The Company's allocated share of the pension expense was \$4,750,237 and \$6,492,736 for 2014 and 2013, respectively.

2. Postretirement Benefit Plan:

The Company participates in a postretirement health and life insurance benefit plan sponsored by TRV for employees of the Company and its property-casualty affiliates that satisfy certain age and service requirements and for certain retirees. The Company has no legal obligation for benefits under this plan. The Company is charged for its allocable share of postretirement benefit expense for this plan based on its allocated and/or direct salary costs in accordance with an expense allocation agreement. The Company's allocated share of the postretirement benefit expense was \$159,436 and \$234,731 for 2014 and 2013, respectively.

3. Deferred Compensation Plans:

The Company participates in a 401(k) savings plan sponsored by TRV for substantially all employees of the Company and its property-casualty affiliates. The Company has no legal obligation for benefits under this plan. The Company is charged for its allocable share of expense for this plan based on its allocated and/or direct salary costs in accordance with an expense allocation agreement. The Company's allocated share of the 401(k) savings plan expense was \$4,360,689 and \$4,339,522 for 2014 and 2013, respectively.

H. Postemployment Benefits and Compensated Absences:

Not applicable.

I. Impact of Medicare Modernization Act on Postretirement Benefits:

13. CAPITAL AND SURPLUS, DIVIDEND RESTRICTIONS AND QUASI-REORGANIZATIONS

The Company has 20,000 shares of common capital stock authorized, issued and outstanding with a par value of \$250 per share.

The Company paid ordinary dividends of \$217.8 million and extraordinary dividends of \$49 million for a total of \$266.8 million in 2014, to its parent company, TIGHI. In 2013, the Company paid ordinary dividends of \$81 million to TIGHI.

Dividends to shareholders and the proportion of the profits of the Company that may be paid to shareholders are not limited by charter. The maximum amount of dividends which can be paid by Connecticut insurance companies to shareholders without prior approval of the domiciliary Insurance Commissioner is subject to restrictions relating to statutory surplus or net income. The maximum amount of the dividends to shareholders that can be made during 2015 without prior approval is \$228,155,000.

There are no restrictions on the use of the Company's unassigned funds and such funds are held for the benefit of the shareholder, except for the dividend restrictions indicated above.

The change in the balance of special surplus from retroactive reinsurance is a result of ongoing activity occurring in 2014. See Note 23F for additional detail.

Unassigned funds have been increased by cumulative net unrealized gains of \$348,904,798.

14. CONTINGENCIES

A. Contingent Commitments:

At December 31, 2014, the Company had commitments to fund investments of \$100 million.

B. Assessments:

1. The Company has accrued liabilities of \$11.9 million for guaranty fund and other insurance-related assessments and related recoverables of \$912 thousand at December 31, 2014. The assessments are expected to be paid over a period ranging from one year to the life expectancy of certain workers' compensation claimants and the recoverables are expected to occur over the same period of time.

2. a. Assets recognized from paid and accrued premium tax offsets December 31, 2013	\$ 674,186

NOTES TO FINANCIAL STATEMENTS**C. Gain Contingencies:**

On August 17, 2010, in a reinsurance dispute in New York state court captioned *United States Fidelity & Guaranty Company v. American Re-Insurance Company, et al.*, the trial court granted summary judgment for United States Fidelity and Guaranty Company (USF&G) and denied summary judgment for American Re-Insurance Company, a subsidiary of Munich Re (American Re), and three other reinsurers. By order dated October 22, 2010, the trial court corrected certain clerical errors and made certain clarifications to the August 17, 2010 order. On October 25, 2010, judgment was entered against American Re and the other three insurers, awarding USF&G \$420 million, comprising \$251 million ceded under the terms of the disputed reinsurance contract plus interest of 9% amounting to \$169 million as of that date. The judgment, including the award of interest, was appealed by the reinsurers to the New York Supreme Court, Appellate Division, First Department. On January 24, 2012, the Appellate Division affirmed the judgment. On January 30, 2012, the reinsurers filed a motion with the Appellate Division seeking permission to appeal its decision to the New York Court of Appeals, and on March 12, 2012, the Appellate Division granted the reinsurers' motion. On February 7, 2013, the Court of Appeals issued an opinion that largely affirmed the summary judgment in USF&G's favor, while modifying in part the summary judgment with respect to two discrete issues and remanding the case to the trial court for determination of those issues. The Court set a trial date for August 3, 2015. USF&G believes it has a meritorious position on each of these issues and intends to pursue its claim vigorously. On May 2, 2013, the Court of Appeals denied a motion by reinsurers to reconsider the February 7, 2013 opinion. In November 2013, USF&G entered into a settlement agreement with one of the reinsurers. At December 31, 2014, the claim totaled \$488 million, comprising the \$238 million of reinsurance recoverable plus interest amounting to \$250 million as of that date. Interest will continue to accrue at an annual rate of 9% until the claim is paid.

As USF&G is a participant in the TRV Pool, any amounts recoverable from this claim are subject to participation percentages of the TRV Pool (See Note 26). Accordingly, the Company's respective TRV Pool participation share of the \$238 million awarded by the court represents the amounts owed to and reported by the Company under the terms of the disputed reinsurance contract. The Company's respective Pool participation share of the interest that would be received as part of any judgment ultimately entered in favor of USF&G is treated for accounting purposes as a gain contingency in accordance with SSAP No. 5R, *Liabilities, Contingencies and Impairment of Assets - Revised*, and accordingly has not been recognized in the Company's statutory financial statements.

Resolution of Gain Contingency:

Indemnity was one of the Settlement Class plaintiffs and a class member in a class action lawsuit captioned *Safeco Insurance Company of America, et al. v. American International Group, Inc. et al.* (U.S. District Court, N.D. Ill.) in which the defendants were alleged to have engaged in the under-reporting of workers' compensation premium in connection with a workers' compensation reinsurance pool in which several members of the TRV Pool participate. In February 2012, the district court issued a written opinion approving the class settlement pursuant to which the defendants agreed to pay \$450 million to the class. In March 2012, three parties who objected to the settlement appealed the court's orders approving the settlement to the U.S. Court of Appeals for the Seventh Circuit. In January 2013, all parties, including the three parties who had objected to the settlement, filed a Stipulation of Dismissal indicating that there were no longer any objections to the settlement, and in March 2013, the Seventh Circuit dismissed the appeals. In April 2013, the Seventh Circuit issued its mandate returning the case to the district court for administration of the settlement. In June and November 2013, Indemnity received two payments totaling approximately \$93 million, comprising its allocation from the settlement fund. The combination of the payments received in June and November 2013 totaling \$93 million, less approximately \$2 million remitted to another insurer, resulted in a net gain of \$91 million.

As Indemnity is a participant in the TRV Pool, its settlement amount is subject to participation percentages of the TRV Pool (See Note 26). Accordingly, the Company's respective TRV Pool participation share of the \$91 million receipt is reported as an aggregate write-in for miscellaneous income in the Company's 2013 Statement of Income.

D. Claims Related Extra Contractual Obligation and Bad Faith Losses Stemming from Lawsuits:

F. Joint and Several Liabilities:

Not applicable.

G. All Other Contingencies:

The Company has purchased annuities from life insurance companies to fund structured settlements. For a discussion of the Company's contingent liabilities for structured settlements, see Note 27.

In the ordinary course of business, the Company is a defendant or codefendant in various litigation matters. Although there can be no assurances, as of December 31, 2014, the Company believes, based on information currently available, that the ultimate resolution of these legal proceedings would not be likely to have a material adverse effect on its net income, financial condition or liquidity.

For a discussion of contingencies related to asbestos and environmental reserves, see Note 33.

15. LEASES

Not applicable.

16. INFORMATION ABOUT FINANCIAL INSTRUMENTS WITH OFF-BALANCE-SHEET RISK AND FINANCIAL INSTRUMENTS WITH CONCENTRATIONS OF CREDIT RISK

In the normal course of business, the Company has unfunded commitments to partnerships and limited liability companies. The off-balance-sheet risks of these financial instruments were \$100.0 million at December 31, 2014.

NOTES TO FINANCIAL STATEMENTS**17. SALE, TRANSFER AND SERVICING OF FINANCIAL ASSETS AND EXTINGUISHMENTS OF LIABILITIES****A. Transfers of Receivables Reported as Sales:**

Not applicable.

B. Transfer and Servicing of Financial Assets:

The Company engages in securities lending activities from which it generates net investment income from the lending of certain of its investments to other institutions for short periods of time. Borrowers of these securities provide collateral equal to at least 102% of the market value of the loaned securities plus accrued interest. This collateral is held by a third party custodian, and the Company has the right to access the collateral only in the event that the institution borrowing the Company's securities is in default under the lending agreement. The loaned securities remain a recorded asset of the Company. The Company accepts only cash as collateral for securities on loan and restricts the manner in which that cash is invested to U.S. Treasury securities and U.S. Treasury repurchase agreements. These securities typically have a duration of 1 day. See Schedule D – Part 1 for identification and description of securities on loan.

C. Wash Sales:

Not applicable.

18. GAIN OR LOSS TO THE REPORTING ENTITY FROM UNINSURED PLANS AND THE UNINSURED PORTION OF PARTIALLY INSURED PLANS

Not applicable.

19. DIRECT PREMIUMS WRITTEN/PRODUCED BY MANAGING GENERAL AGENTS/THIRD PARTY ADMINISTRATORS

The Company did not have any direct premiums written through managing general agents (as defined in Appendix A-225 of the NAIC *Accounting Practices and Procedures Manual*) or third party administrators.

20. FAIR VALUE MEASUREMENTS

The Company's estimates of fair value for financial assets and financial liabilities are based on the framework established in the fair value accounting guidance. The framework is based on the inputs used in valuation, gives the highest priority to quoted prices in active markets, and requires that observable inputs be used in the valuations when available. The disclosure of fair value estimates in the fair value accounting guidance hierarchy is based on whether the significant inputs into the valuation are observable. In determining the level of the hierarchy in which the estimate is disclosed, the highest priority is given to unadjusted quoted prices in active markets and the lowest priority to unobservable inputs that reflect the Company's significant market assumptions. The level in the fair value hierarchy within which the fair value measurement is reported is based on the lowest level input that is significant to the measurement in its entirety. The three levels of the hierarchy are as follows:

- Level 1 - Unadjusted quoted market prices for identical assets or liabilities in active markets that the Company has the ability to access.
- Level 2 - Quoted prices for similar assets or liabilities in active markets; quoted prices for identical or similar assets or liabilities in inactive markets; or valuations based on models where the significant inputs are observable (e.g., interest rates, yield curves, prepayment speeds, default rates, loss severities, etc.) or can be corroborated by observable market data.
- Level 3 - Valuations based on models where significant inputs are not observable. The unobservable inputs reflect the Company's own assumptions about the inputs that market participants would use.

A. (1) Securities measured and reported at fair value as of December 31, 2014:

<u>Description</u>	<u>Level 1</u>	<u>Level 2</u>	<u>Level 3</u>	<u>Total</u>

There were no significant transfers between level 1 and level 2.

(2) Securities measured and reported at fair value using significant unobservable inputs (Level 3):

<u>Description</u>	<u>Beginning Balance at 1/1/2014</u>	<u>Transfers in to Level 3</u>	<u>Transfers out of Level 3</u>	<u>Total gains & (losses) included in Net Income</u>	<u>Total gains & (losses) included in Surplus</u>	<u>Purchases</u>	<u>Issuances</u>	<u>Sales</u>	<u>Settlements</u>	<u>Ending Balance at 12/31/2014</u>

(3) The Company holds NAIC designation 3 - 6 securities at the lower of cost or market as defined in SSAP No. 26, *Bonds, Excluding Loan-backed and Structured Securities*. Market fluctuations cause securities to change from being held at cost to fair value or vice versa. These changes result in a transfer in or out of level 3.

The Company transfers securities out of level 3 when it is able to obtain market observable data. The Company recognizes these transfers at the end of the period.

(4) Bonds are carried at fair value in accordance with NAIC guidelines. These securities are generally priced by the SVO or by a third party organization.

The Company holds common stock where fair value is based upon market quotations. Accordingly, the fair value for such common stock is included in the amount disclosed in level 1 of the hierarchy. The market quotations for these securities are provided by the SVO or a third party organization

(5) Not applicable.**B. Not applicable.**

F. Subprime Mortgage-Related Risk Exposure:

The Company defines subprime mortgage-backed securities as investments which generally contain a majority of loans to borrowers that exhibit one or more of the following characteristics at the time of issuance:

- Low FICO scores,
- Above prime interest rates,
- High loan-to-value ratios,
- High debt-to-income ratios,
- Low loan documentation (e.g. limited or no verification of income and assets), or
- Other characteristics that are inconsistent with conventional underwriting standards employed by government sponsored mortgage entities.

In addition, because of their high loan-to-value ratios, the Company has categorized second-lien mortgage-backed securities as subprime, regardless of the credit characteristics of the borrower on the underlying mortgage.

The Company reviews the credit characteristics of the loans that back these mortgage-backed securities when making the determination to categorize them as subprime exposure. Since the primary purpose of the investment portfolio is to fund future claim payments, the Company employs a conservative investment philosophy. In applying this philosophy to structured securities, including subprime mortgage-backed securities, the Company favors the purchase of senior credit tranches over junior or leveraged credit tranches.

Overall exposure to subprime mortgage-backed securities is sufficiently small in that the Company would likely have other securities available for liquidity needs. The Company utilizes discounted cash flow valuation analysis in its regular, ongoing review of its existing subprime mortgage portfolio, as well as in its analysis of subprime mortgage-backed bonds for purchase. Based upon the credit performance of mortgages within each securitization, the Company projects voluntary prepayments, defaults and loss severity to estimate any expected losses.

A. Accrued retrospective premiums (Page 2, Line 15.3) have been determined based upon loss experience on business subject to such experience rating adjustment. Accrued retrospectively rated premiums, including all of those relating to bulk IBNR, have been determined by or allocated to individual policyholder accounts. Ten percent of the amount not offset by retrospective return premiums, other liabilities to the same party (other than loss and loss expense reserves), or collateral as permitted by SSAP No. 66, *Retrospectively Rated Contracts*, has been nonadmitted. The amount shown in Part E below is the Company's proportionate share of the accrued retrospective premiums of the TRV Pool (see Note 26).

B. The Company records accrued retrospective premium as an adjustment to earned premium.

25. CHANGES IN INCURRED LOSSES AND LOSS ADJUSTMENT EXPENSES

During the period from January 1, 2014 to December 31, 2014, the prior year-end total loss and LAE reserves developed favorably by \$26,269,000, resulting from better than expected loss and defense and cost containment development primarily in the other liability – occurrence, reinsurance – liability, homeowners and special property lines. This favorable development was partially offset by unfavorable development primarily related to asbestos loss and LAE reserves for “Prior” accident years in the products liability – occurrence line.

The improvement in the other liability – occurrence line was concentrated in the excess coverages for accident years 2008 through 2012 reflecting more favorable legal and judicial environments than what the Company previously expected. The improvement in the reinsurance – liability line was driven by better than expected loss experience related to, and the commutation of reinsurance treaties associated with, a workers' compensation reinsurance pool for “Prior” accident years. The improvement in the homeowners line was driven primarily by better than expected development for non-catastrophe weather-related claims for accident year 2013 and for catastrophe claims for accident years 2011 through 2013. The improvement in the special property line was driven primarily by better than expected development for catastrophe and non-catastrophe claims for accident years 2010 through 2013.

The unfavorable development related to asbestos includes a reclassification of reserves for the Direct Action Settlement litigation from loss to adjusting and other (AO) LAE as disclosed in the Schedule P Interrogatories of the Company. This change impacts the apparent development for the “Prior” accident year in Schedule P, Part 2R - Section 1, even though the reclassification did not change total loss and LAE reserve development. Lastly, asbestos-related AO reserves include an increase for the court awarded interest for that same settlement.

The remaining changes are generally the result of ongoing analyses of recent loss data and trends. A portion of the change from prior year effects relates to retrospectively rated policies which are subject to premium adjustments.

26. INTERCOMPANY POOLING ARRANGEMENTS

The Company is a participant in the TRV Pool, an intercompany pooling arrangement. The lead company of the TRV Pool is Indemnity. Under the terms of the arrangement, the property-casualty underwriting risks for substantially all lines of business of the intercompany pool participants are reinsured with Indemnity. The pool of net underwriting risks remaining after reinsurance is transacted with third parties by Indemnity is then retroceded to the pool participants based on pool participation percentages. The provision for reinsurance and the write-off of uncollectible reinsurance are reported in the statutory financial statements of Indemnity and are not allocated to the other pool participants.

The names, NAIC company codes and intercompany pool percentages of the companies participating in the TRV Pool are as follows:

All of the above TRV Pool companies are party to reinsurance agreements with non-affiliated reinsurers covering business subject to the pooling agreement and have contractual rights of direct recovery from the non-affiliated reinsurers under the terms of such reinsurance agreements.

As of December 31, 2014 the Company had \$15,577,683 payable to affiliates as a result of its intercompany reinsurance transactions which settled in January 2015.

NOTES TO FINANCIAL STATEMENTS**27. STRUCTURED SETTLEMENTS**

The Company has purchased annuities from life insurance companies, under which the claimant is the payee and the Company is the owner of the annuity contract, to fund structured settlements. These annuity contracts are now the direct responsibility of the life insurance companies from whom they have been purchased and claims settled by the purchase of such annuity contracts are treated as closed claims. In the event that the life insurance company fails to make the required annuity payments, the Company would be required to make such payments if and to the extent not paid by state guaranty associations.

The following data represents the Company's proportionate share of structured settlement annuities purchased by members of the TRV Pool (see Note 26):

At December 31, 2014 the amount of reserve credit recorded by the Company for high deductible policies on unpaid claims was \$303,469,002 and the amount billed and outstanding on paid claims was \$2,594,774. These amounts represent the Company's proportionate share of the TRV Pool (see Note 26).

32. DISCOUNTING OF LIABILITIES FOR UNPAID LOSSES OR UNPAID LOSS ADJUSTMENT EXPENSES

A. The Company establishes and reports tabular workers' compensation case reserves consistent with statistical reporting requirements, as described below. The total reserve (case plus IBNR/Bulk) for these claims is consistent with its own evaluation of the ultimate payout and a 5% discount rate.

Except for certain third party administered claims, tabular workers' compensation case reserves have been discounted in accordance with state approved workers' compensation statistical plans. The tabular case reserves, as included in Schedule P, reflect a discount rate of 3.5% or as specified by state requirements, generally using the following United States Life Tables:

NOTES TO FINANCIAL STATEMENTS

The Company develops loss reserve estimates for workers' compensation tabular claims that are expectations of what the ultimate settlement costs for these claims will be upon final resolution in the future. These estimates are based on the Company's assessment of facts and circumstances currently known and, using Company experience, multiple actuarial estimation methods. This includes estimates of payment patterns reflecting actual mortality, morbidity and settlement history that relate both to claims currently identified as tabular as well as claims not yet identified as tabular ("IBNR" tabular).

The total reserves and the corresponding discount that the Company has established for these claims reflects these multiple estimation methods, payment patterns and a discount rate of 5%. The liabilities and discount amounts shown below reflect estimates of the ultimate liability for tabular claims. Furthermore, the case vs. IBNR discount amounts shown below each reflects estimates of the ultimate resolution costs for these claims: case amounts for claims already identified as tabular; IBNR amounts for claims yet to be identified as tabular.

The December 31, 2014 liabilities of the Company included \$81,432,965 and \$5,465,412 of such discounted liabilities related to workers' compensation and other liability-occurrence reserves, respectively. The amount of discount for case and IBNR reserves at December 31, 2014 is as follows:

33. ASBESTOS/ENVIRONMENTAL RESERVES

The following represents the Company's allocable share of the pooled property-casualty business of the TRV Pool, based on its pro rata participation percentage of 4.84%.

A. Does the Company have on the books or has it ever written an insured for which you have identified a potential for the existence of a liability due to asbestos losses? Yes (X) No ()

Exposure for asbestos losses arises from liability coverage written many years ago. The exposures include bodily injury and property damage losses.

Because each policyholder presents different liability and coverage issues, the Company generally reviews the exposure presented by each policyholder at least annually. Among the factors which the Company may consider in the course of this review are: available insurance coverage, including the role of any umbrella or excess insurance the Company has issued to the policyholder; limits and deductibles; an analysis of the policyholder's potential liability; the jurisdictions involved; past and anticipated future claim activity and loss development on pending claims; past settlement values of similar claims; allocated claim adjustment expense; potential role of other insurance; the role, if any, of non-asbestos claims or potential non-asbestos claims in any resolution process; and applicable coverage defenses or determinations, if any, including the determination as to whether or not an asbestos claim is a products/completed operation claim subject to an aggregate limit and the available coverage, if any, for that claim.

The Company continues to be involved in coverage litigation concerning a number of policyholders, some of whom have filed for bankruptcy, who in some instances have asserted that all or a portion of their asbestos-related claims are not subject to aggregate limits on coverage. In these instances, policyholders also may assert that each individual bodily injury claim should be treated as a separate occurrence under the policy. It is difficult to predict whether these policyholders will be successful on both issues. To the extent both issues are resolved in a policyholder's favor and other Company defenses are not successful, the Company's coverage obligations under the policies at issue would be materially increased and bounded only by the applicable per-occurrence limits and the number of asbestos bodily injury claims against the policyholders. Although the Company has seen a moderation in the overall risk associated with these lawsuits, it remains difficult to predict the ultimate cost of these claims.

The Company's quarterly asbestos reserve review includes an analysis of exposure and claim payment patterns by policyholder category, as well as recent settlements, policyholder bankruptcies, judicial rulings and legislative actions. The Company also analyzes developing payment patterns among policyholders as well as projected reinsurance billings and recoveries. In addition, the Company reviews its historical gross and net loss and expense paid experience, year-by-year, to assess any emerging trends, fluctuations, or characteristics suggested by the aggregate paid activity. Conventional actuarial methods are not utilized to establish asbestos reserves nor have the Company's evaluations resulted in any way of determining a meaningful average asbestos defense or indemnity payment.

D. Does the Company have on the books or has it ever written an insured for which you have identified a potential for the existence of a liability due to environmental losses? Yes (X) No ()

Exposure for environmental losses arises from liability coverage written many years ago. The exposures include bodily injury and property damage losses.

The resolution of environmental exposures by the Company generally occurs through settlements with policyholders as opposed to claimants. Generally, the Company strives to extinguish any obligations it may have under any policy issued to the policyholder for past, present and future environmental liabilities and extinguish any pending coverage litigation dispute with the policyholder. This form of settlement is commonly referred to as a "buy-back" of policies for future environmental liability. In addition, many of the agreements have also extinguished any insurance obligation which the Company may have for other claims, including but not limited to asbestos and other cumulative injury claims. The Company and its policyholders may also agree to settlements which extinguish any liability arising from known specified sites or claims. Where appropriate, these agreements also include indemnities and hold harmless provisions to protect the Company. The Company's general purpose in executing these agreements is to reduce the Company's potential environmental exposure and eliminate the risks presented by coverage litigation with the policyholder and related costs.

In establishing environmental reserves, the Company evaluates the exposure presented by each policyholder and the anticipated cost of resolution, if any. In the course of this analysis, the Company generally considers the probable liability, available coverage and relevant judicial interpretations. In addition, the Company considers the many variables presented, such as: the nature of the alleged activities of the policyholder at each site; the number of sites; the total number of potentially responsible parties at each site; the nature of the alleged environmental harm and the corresponding remedy at each site; the nature of government enforcement activities at each site; the ownership and general use of each site; the overall nature of the insurance relationship between the Company and the policyholder, including the role of any umbrella or excess insurance the Company has issued to the policyholder; the involvement of other insurers; the potential for other available coverage, including the number of years of coverage; the role, if any, of non-environmental claims or potential non-environmental claims in any resolution process; and the applicable law in each jurisdiction. The evaluation of the exposure presented by a policyholder can change as information concerning that policyholder and the many variables presented is developed. Conventional actuarial techniques are not used to estimate these reserves.

In its review of environmental reserves, the Company considers: past settlement payments; changing judicial and legislative trends; its reserves for the costs of litigating environmental coverage matters; the potential for policyholders with smaller exposures to be named in new clean-up actions for both on- and off-site waste disposal activities; the potential for adverse development; the potential for additional new claims beyond previous expectations; and the potential higher costs for new settlements.

The majority of the net environmental reserve is carried in a bulk reserve which includes unresolved environmental claims, incurred but not reported environmental claims and the anticipated cost of coverage litigation disputes relating to these claims. The bulk reserve the Company carries is established and adjusted based upon the aggregate volume of in-process environmental claims and the Company's experience in resolving those claims. The balance of the net environmental reserve consists of case reserves.

As a result of the processes and procedures discussed above, management believes that the reserves carried for asbestos and environmental claims are appropriately established based upon known facts, current law and management's judgment. However, the uncertainties surrounding the final resolution of these claims continue, and it is difficult to determine the ultimate exposure for asbestos and environmental claims and related litigation. As a result, these reserves are subject to revision as new information becomes available and as claims develop. The continuing uncertainties include, without limitation, the risks and lack of predictability inherent in complex litigation, any impact from the bankruptcy protection sought by various asbestos producers and other asbestos defendants, a further increase or decrease in the cost to resolve, and/or the number of, asbestos and environmental claims beyond that which is

NOTES TO FINANCIAL STATEMENTS

anticipated, the emergence of a greater number of asbestos claims than anticipated as a result of extended life expectancies resulting from medical advances and lifestyle improvements, the role of any umbrella or excess policies the Company has issued, the resolution or adjudication of disputes pertaining to the amount of available coverage for asbestos and environmental claims in a manner inconsistent with the Company's previous assessment of these claims, the number and outcome of direct actions against the Company, future developments pertaining to the Company's ability to recover reinsurance for asbestos and environmental claims and the unavailability of other insurance sources potentially available to policyholders, whether through exhaustion of policy limits or through the insolvency of other participating insurers. In addition, uncertainties arise from the insolvency or bankruptcy of policyholders and other defendants. It is also not possible to predict changes in the legal, regulatory and legislative environment and their impact on the future development of asbestos and environmental claims. This environment could be affected by changes in applicable legislation and future court and regulatory decisions and interpretations, including the outcome of legal challenges to legislative and/or judicial reforms establishing medical criteria for the pursuit of asbestos claims. It is also difficult to predict the ultimate outcome of complex coverage disputes until settlement negotiations near completion and significant legal questions are resolved or, failing settlement, until the dispute is adjudicated. This is particularly the case with policyholders in bankruptcy where negotiations often involve a large number of claimants and other parties and require court approval to be effective. As part of its continuing analysis of asbestos and environmental reserves, the Company continues to study the implications of these and other developments.

Because of the uncertainties set forth above, additional liabilities may arise for amounts in excess of the Company's current reserves. In addition, the Company's estimate of claims and claim adjustment expenses may change. These additional liabilities or increases in estimates, or a range of either, cannot now be reasonably estimated and could result in income statement charges that could be material to the Company's operating results in future periods

GENERAL INTERROGATORIES

PART 2 - PROPERTY AND CASUALTY INTERROGATORIES

- 6.1 What provision has this reporting entity made to protect itself from an excessive loss in the event of a catastrophe under a workers' compensation contract issued without limit of loss?
The Company's risk management practices include active monitoring of insured employee local-based concentrations. Although the Company currently has no significant workers' compensation treaty reinsurance, the Company reviews available treaty reinsurance coverages periodically and makes purchase decisions as it deems appropriate. Facultative reinsurance purchases are also made as deemed appropriate.
- 6.2 Describe the method used to estimate this reporting entity's probable maximum insurance loss, and identify the type of insured exposures comprising that probable maximum loss, the locations of concentrations of those exposures and the external resources (such as consulting firms or computer software models), if any, used in the estimation process:
The Company uses various analyses and methods, including proprietary and third party computer modeling processes, to analyze catastrophic events and the associated risks to arrive at loss estimates. The Company uses these analyses and methods to make underwriting and reinsurance decisions designed to manage its exposure to catastrophic events. The Company's hurricane loss estimates for U.S. exposures include property exposures, property residual market exposures and an adjustment for certain non-property exposures. The Company's loss estimates are based on the Company's catastrophe risk model estimates and include loss from the hurricane hazards of wind and storm surge. The Company's loss estimates for earthquakes reflect U.S. exposures and include property exposures and workers' compensation exposures. The Company's loss estimates for terrorism reflect U.S. exposures and include property exposures. The Company also develops conventional attack loss estimates for combined property and workers' compensation exposures for comparison and adherence with aggregate enterprise guidelines. To best assess risk, the Company conducts site engineering analyses on buildings with large exposures. Property exposures are analyzed to determine locations of concentration. Spanning the U.S., this includes California, Florida, New Madrid, the Northeast, the Gulf States and the Mid-Atlantic States.
- 6.3 What provision has this reporting entity made (such as a catastrophic reinsurance program) to protect itself from an excessive loss arising from the types and concentrations of insured exposures comprising its probable maximum property insurance loss?
The Company purchases both excess of loss and proportional reinsurance to protect itself from an excessive catastrophe loss.
- 6.4 Does the reporting entity carry catastrophe reinsurance protection for at least one reinstatement, in an amount sufficient to cover its estimated probable maximum loss attributable to a single loss event or occurrence? Yes No
- 6.5 If no, describe any arrangements or mechanisms employed by the reporting entity to supplement its catastrophe reinsurance program or to hedge its exposure to uninsured catastrophic loss:

- 7.1 Has the reporting entity reinsured any risk with any other entity under a quota share reinsurance contract that includes a provision that would limit the reinsurer's losses below the stated quota share percentage (e.g., a deductible, a loss ratio corridor, a loss cap, an aggregate limit or any similar provisions)? Yes No
- 7.2 If yes, indicate the number of reinsurance contracts containing such provisions.15
- 7.3 If yes, does the amount of reinsurance credit taken reflect the reduction in quota share coverage caused by any applicable limiting provision(s)? Yes No
- 8.1 Has this reporting entity reinsured any risk with any other entity and agreed to release such entity from liability, in whole or in part, from any loss that may occur on this risk, or portion thereof, reinsured? Yes No
- 8.2 If yes, give full information:

- 9.1 Has the reporting entity ceded any risk under any reinsurance contract (or under multiple contracts with the same reinsurer or its affiliates) for which during the period covered by the statement: (i) it recorded a positive or negative underwriting result greater than 5% of prior year-end surplus as regards policyholders or it reported calendar year written premium ceded or year-end loss and loss expense reserves ceded greater than 5% of prior year-end surplus as regards policyholders; (ii) it accounted for that contract as reinsurance and not as a deposit; and (iii) the contract(s) contain one or more of the following features or other features that would have similar results:
 (a) A contract term longer than two years and the contract is noncancellable by the reporting entity during the contract term;
 (b) A limited or conditional cancellation provision under which cancellation triggers an obligation by the reporting entity, or an affiliate of the reporting entity, to enter into a new reinsurance contract with the reinsurer, or an affiliate of the reinsurer;
 (c) Aggregate stop loss reinsurance coverage;
 (d) A unilateral right by either party (or both parties) to commute the reinsurance contract, whether conditional or not, except for such provisions which are only triggered by a decline in the credit status of the other party;
 (e) A provision permitting reporting of losses, or payment of losses, less frequently than on a quarterly basis (unless there is no activity during the period); or
 (f) Payment schedule, accumulating retentions from multiple years or any features inherently designed to delay timing of the reimbursement to the ceding entity? Yes No
- 9.2 Has the reporting entity during the period covered by the statement ceded any risk under any reinsurance contract (or under multiple contracts with the same reinsurer or its affiliates), for which, during the period covered by the statement, it recorded a positive or negative underwriting result greater than 5% of prior year-end surplus as regards policyholders or it reported calendar year written premium ceded or year-end loss and loss expense reserves ceded greater than 5% of prior year-end surplus as regards policyholders; excluding cessions to approved pooling arrangements or to captive insurance companies that are directly or indirectly controlling, controlled by, or under control with (i) one or more unaffiliated policyholders of the reporting entity, or (ii) an association of which one or more unaffiliated policyholders of the reporting entity is a member where:
 (a) The written premium ceded to the reinsurer by the reporting entity or its affiliates represents fifty percent (50%) or more of the entire direct and assumed premium written by the reinsurer based on its most recently available financial statement; or
 (b) Twenty-five percent (25%) or more of the written premium ceded to the reinsurer has been retroceded back to the reporting entity or its affiliates in a separate reinsurance contract? Yes No
- 9.3 If yes to 9.1 or 9.2, please provide the following information in the Reinsurance Summary Supplemental Filing for General Interrogatory 9:
 (a) The aggregate financial statement impact gross of all such ceded reinsurance contracts on the balance sheet and statement of income;
 (b) A summary of the reinsurance contract terms and indicate whether it applies to the contracts meeting the criteria in 9.1 or 9.2; and
 (c) A brief discussion of management's principle objectives in entering into the reinsurance contract including the economic purpose to be achieved.
- 9.4 Except for transactions meeting the requirements of paragraph 31 of SSAP No. 62R, Property and Casualty Reinsurance, has the reporting entity ceded any risk under any reinsurance contract (or multiple contracts with the same reinsurer or its affiliates) during the period covered by the financial statement, and either:
 (a) Accounted for that contract as reinsurance (either prospective or retroactive) under statutory accounting principles ("SAP") and as a deposit under generally accepted accounting principles ("GAAP"); or
 (b) Accounted for that contract as reinsurance under GAAP and as a deposit under SAP? Yes No
