NOTES TO FINANCIAL STATEMENTS

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES AND GOING CONCERN

A. Accounting Practices:

United States Fidelity and Guaranty Company (the Company) prepares its statutory financial statements in conformity with the accounting practices prescribed or permitted by the State of Connecticut. The State of Connecticut requires that insurance companies domiciled in Connecticut prepare their statutory basis financial statements in accordance with the National Association of Insurance Commissioners (NAIC) *Accounting Practices and Procedures Manual*, subject to any deviations prescribed or permitted by the Connecticut Insurance Commissioner. The Company does not apply any statutory accounting practices that would be considered a permitted practice in its financial statements.

B. Use of Estimates in the Preparation of the Financial Statements:

The preparation of financial statements requires management to make estimates and assumptions that affect the reported amounts of certain assets and liabilities and disclosure of contingent liabilities at the date of the financial statements and the reported amounts of revenue and losses and expenses during the reporting period. Actual results could differ from those estimates.

C. Accounting Policy:

Certain assets designated as nonadmitted are excluded from the statutory balance sheet and changes in such amounts are charged or credited directly to unassigned funds, a component of surplus as regards policyholders' (policyholders' surplus). The costs of acquiring both new and renewal insurance business are charged to income as incurred. Premiums are recognized as revenues pro rata over the policy period. Unearned premium reserves represent the unexpired portion of policy premiums, net of reinsurance. Reserves for losses, loss adjustment expenses (LAE) and unearned premiums ceded to reinsurers have been reported as reductions of the related reserves. Amounts recoverable from reinsurers are estimated in a manner consistent with the loss liability associated with the reinsured business. A liability is established for unsecured, unauthorized reinsurance and overdue authorized reinsurance recoverables.

The provision for federal income taxes is comprised of two components: current income taxes and deferred income taxes. Deferred federal income taxes arise from changes during the year in cumulative temporary differences between the statutory basis and tax basis of assets and liabilities. Gross deferred tax assets are reduced by a statutory valuation allowance adjustment if, based on the weight of available evidence, it is more likely than not that some portion or all of the gross deferred tax assets will not be realized.

Invested assets are valued according to statutory requirements and the bases of valuation adopted by the NAIC.

Short-term investments are stated at amortized cost and consist of investments with remaining maturities of one year or less at the time of acquisition, excluding those investments classified as cash equivalents.

Bonds are generally stated at amortized cost, except bonds that are defined by the NAIC as non-investment grade (NAIC Class 3-6) which are stated at the lower of amortized cost or NAIC fair value. Amortization is calculated using the constant yield method.

Common stocks of non-affiliates are stated at NAIC fair value based on fair values received from the Securities Valuation Office (SVO) or by a third party organization.

NAIC Class 1 and 2 redeemable preferred stocks generally are stated at amortized cost, whereas NAIC Class 3-6 redeemable preferred stocks are stated at the lower of cost, amortized cost, or NAIC fair value. NAIC Class 1 and 2 non-redeemable preferred stocks generally are stated at NAIC fair value, while NAIC Class 3-6 non-redeemable preferred stocks are stated at the lower of cost or NAIC fair value.

Loan-backed and structured securities are amortized using the retrospective method, except for securities that have incurred a decline in fair value that is other-than-temporary which are amortized using the prospective method. The effective yield used to determine amortization is calculated based on actual historical and projected future cash flows, which are obtained from a nationally recognized securities data provider.

Common stock investments in subsidiaries and affiliated entities are based on the net worth of the entity, determined in accordance with statutory accounting valuation methods. Dividends received from subsidiaries are recorded as net investment income and undistributed net income is recorded as net unrealized capital gains or (losses).

The Company's investments in partnerships, joint ventures and limited liability companies are reported using the equity method of accounting, determined in accordance with statutory accounting valuation methods. Distributions of accumulated earnings received from these investments are recorded as net investment income earned and undistributed net income is recorded as net unrealized capital gains or (losses).

The Company utilizes anticipated investment income as a factor in the premium deficiency calculation.

Property-casualty reserves are established for loss and LAE and represent management's estimate of the ultimate cost of all unpaid reported and unreported claims incurred and related expenses. In establishing loss and LAE reserves, the Company also takes into account estimated recoveries, reinsurance, salvage and subrogation. The loss and LAE reserves are reviewed regularly by qualified actuaries employed by the Company. The Company continually refines its loss and LAE reserve estimates in a regular ongoing process as historical loss experience develops and additional claims are reported and settled. Because establishment of loss and LAE reserves is an inherently uncertain process involving estimates, currently established reserves may change. The Company reflects adjustments to loss and LAE reserves in the period in which the estimates change. Such changes in estimates could occur in a future period and may be material to the Company's net income in such period. For a discussion of loss and LAE reserves related to asbestos and environmental reserves, see Note 33.

The Company has not modified its accounting policy regarding the capitalization of fixed assets from the prior period.

D. Loan-Backed Securities:

1. The Company applies the retrospective method of revaluing loan-backed securities. The Company's loan-backed securities are revalued quarterly using the constant effective yield method which includes an adjustment for estimated principal prepayments, if any. The effective yield used to determine amortization for these securities is recalculated and adjusted periodically based upon actual historical and/or projected future cash flows. The Company changes from the retrospective to prospective method for valuing the securities when an other-than-temporary impairment has been recorded.

For collateralized mortgage obligations, asset-backed securities and pass-through certificates prepayment assumptions are adjusted periodically.

When unit prices published by the SVO are not available, the Company uses a nationally recognized pricing service, as well as broker quotes in determining the fair value of its loan-backed securities.

2. The following table provides aggregated information on structured securities classified on the basis used for the recognized 2017 other-than-temporary impairments:

	Amortized cost basis before other-than- temporary impairment	Other-than-temporary impairment recognized in loss	Fair value

Total:			<u>\$ 25,647</u>			

NOTES TO FINANCIAL STATEMENTS

4. The gross unrealized investment losses and related fair value for impaired securities for which an other-than-temporary impairment has not been recognized as a realized loss were as follows:

a. The aggregate amount of unrealized losses:				
	1. Less than 12 Months	\$	22,473	
	2. 12 Months or Longer	\$	-	
b. The aggregate related fair value of securities with unrealized losses:				
	1. Less than 12 Months	\$	3,537,750	
	2. 12 Months or Longer	\$	-	

5. The Company determines an other-than-temporary impairment by utilizing discounted cash flow modeling to determine the present value of the security and comparing the present value with the amortized cost of the security. If the amortized cost is greater than the present value of the expected cash flows, the difference is considered a credit loss and recognized in net realized capital gains (losses). The Company estimates the present value of the security by projecting future cash flows of the assets underlying the securitization, allocating the flows to the various tranches based on the structure of the securitization, and determining the present value of the cash flows using the effective yield of the security at the date of acquisition (or the most recent implied rate used to accrete the security if the implied rate has changed as a result of changes in expected cash flows). The Company incorporates levels of delinquencies, defaults and severities as well as credit attributes of the remaining assets in the securitization, along with other economic data, to arrive at its best estimate of the parameters applied to the assets underlying the securitization.

E. Dollar Repurchase Agreements and/or Securities Lending Transactions:

1. The Company requires collateral equal to at least 102% of the market value of the loaned security plus accrued interest. The Company accepts only cash as collateral for securities on loan and restricts the manner in which that cash is invested to U.S. Treasury securities and U.S. Treasury repurchase agreements.

NOTES TO FINANCIAL STATEMENTS

5. Deferred income taxes do not include any benefit from investment tax credits.
6. Deferred income taxes do not include a benefit from net operating losses.
7. The decrease to net deferred tax assets for the effects of enactment of the Tax Cuts and Jobs Act of 2017 is \$11,545,879.

The Company has recorded provisional amounts for tax imposed on partnership investments as well as the amount due under the transition rule relating to the change in discounting of incurred losses based on information available at December 31, 2017. As a result of the Company's normal U.S. income tax return preparation process, the Company expects taxes related to partnerships to be adjusted as final earnings from partnership investments (Form K-1's) are received in 2018 for preparation of the Company's 2017 U.S. income tax return that will be filed in 2018. The amounts payable under the transition rules related to discounting have been estimated but are subject to change once the U.S. Treasury issues guidance sometime in 2018. Adjustments to temporary differences will result from the reduced income tax rate applied to the deferred taxes associated with these items. Provisional amounts may also be adjusted to the extent future clarifications of Tax Cuts and Jobs Act of 2017 are provided.

8. There are no adjustments to gross deferred tax assets because of a change in circumstances that causes a change in judgment about the realizability of the related deferred tax asset.
9. The change in net deferred income taxes is comprised of the following:

	<u>December 31, 2017</u>	<u>December 31, 2016</u>	<u>Change</u>
Total deferred tax assets	\$ 64,254,654	\$ 67,020,023	\$ (2,765,369)

- E.
 1. The Company has no net operating loss carry-forward available for tax purposes.
 2. The Company has \$19,851,865, \$40,073,758, and \$2,141,282 of federal income tax from the current and prior tax years respectively, available for recoupment in the event of future losses.
 3. The reporting entity has no protective tax deposits with the Internal Revenue Service (IRS) under Section 6603 of the IRS Code.
- F.
 1. The Company is included in a consolidated federal income tax return with its ultimate parent company, The Travelers Companies, Inc. (TRV). A list of the entities included with the Company in a consolidated federal income tax return filing is attached.
 2. The Company is a party to a tax allocation agreement that sets forth the manner in which total consolidated federal income tax is allocated among companies included in the consolidated return. Member companies included in the TRV consolidated return are allocated taxes annually based upon their separate taxable income. Companies with a current federal income tax receivable from TRV will receive settlement to the extent that such receivables are for tax benefits that have been utilized in the consolidated federal income tax return. Member companies are reimbursed by TRV in the event the IRS levies upon a member's assets for unpaid taxes in excess of the amount specifically allocated to a member.

In the event that the consolidated group develops an Alternative Minimum Tax (AMT), each company with an AMT on a separate company basis will be allocated a portion of the consolidated AMT. Settlement of the AMT will be made in the same manner and timing as the regular federal income tax. For 2017, the consolidated group does not expect to be in an AMT position. For 2018 and forward, the Tax Cuts and Jobs Act of 2017 repealed the AMT.

- G. The Company does not believe it is reasonably possible that the liability related to any federal or foreign tax loss contingencies may significantly increase within the next 12 months.

10. INFORMATION CONCERNING PARENT, SUBSIDIARIES, AFFILIATES AND OTHER RELATED PARTIES

- A-C.
 - (1) In March 2016, the Company sold \$22.7 million of securities to the Travelers Money Market Liquidity Pool (TRVMMLP).
 - (2) In December 2016, the Company sold \$125.0 million of securities to its affiliate, Travelers Casualty and Surety Company.

Schedule Y - Part 2 summarizes the net flow of funds among affiliates for various types of transactions between affiliates. Regulatory prior approval and/or prior notification has been provided for any transaction requiring such action.

The following are general business arrangements that result in or are used for transactions with affiliates in the normal course of business:

- (1) The principal banking functions for the property-casualty operations of TRV and some or all of its affiliated property-casualty insurance companies are handled by The Travelers Indemnity Company (Indemnity). Settlements between the companies are made at least monthly.
- (2) TRV maintains a private short-term investment pool, known as the TRVMMLP, in which affiliated companies may participate. This pool is managed by Indemnity. Each company may convert its position in the pool into cash at any time and may also use its position in the pool to settle transactions with other affiliated participants in the pool. The position of each company in the pool is

NOTES TO FINANCIAL STATEMENTS

calculated and adjusted daily. Each participating insurance company carries its share of the pool as a short-term investment in Schedule DA. At December 31, 2017 and 2016, the TRVMMLP totaled \$5.20 billion and \$4.95 billion, respectively.

- D. (1) At December 31, 2017 and 2016, the Company had \$5,276,793 and \$8,781,396 payable to affiliates, respectively. Substantially all of the accounts between and among the Company and its affiliates are settled at least monthly through the TRVMMLP or in cash.
- (2) The Company participates in an intercompany reinsurance pooling agreement as described in Note 26. The following represents the unsettled balances resulting from affiliated reinsurance that are reported in the respective balance sheet accounts:

	<u>December 31, 2017</u>	<u>December 31, 2016</u>
Uncollected premiums and agents' balances in course of collection	\$ 62,622,864	\$ 62,676,409
Amounts recoverable from reinsurers	9,419,141	9,485,894
Reinsurance payable on paid losses and LAE	60,300,916	52,187,155

These balances were settled net through the intercompany settlement process during January 2018 and January 2017, respectively.

- E. The Company is party to various guarantees with affiliates. See Note 14G for additional detail.
- F. Material management or service contracts and cost sharing arrangements, involving the Company or any affiliate, other than cost allocation arrangements, are as follows:

<u>TYPE OF CONTRACT AND DESCRIPTION</u>	<u>SERVICING COMPANY</u>	<u>OTHER PARTY</u>
Amended and Restated Expense Allocation	The Travelers Indemnity Company	Travelers P&C ¹
Reinsurance Allocation	The Travelers Indemnity Company	Travelers P&C ¹

¹ "Travelers P&C" includes The Travelers Indemnity Company and some or all of its insurance subsidiaries and affiliates.

- G. All of the issued and outstanding common stock of the Company is owned by St. Paul Fire and Marine Insurance Company (Fire and Marine), an insurance company domiciled in Connecticut. The Company is an indirect subsidiary of TRV, the organization of which is shown in Schedule Y - Part 1.

G. Consolidated/Holding Company Plans:**1. Employee Retirement Plans:**

The Company participates in a qualified noncontributory defined benefit pension plan sponsored by TRV that provides benefits, primarily under a cash balance formula, for substantially all employees of the Company and its property-casualty affiliates. In addition the Company participates in nonqualified defined benefit pension plans sponsored by TRV which cover certain highly-compensated employees of the Company and its property-casualty affiliates. The Company has no legal obligation for benefits under these plans. The Company is charged for its allocable share of pension expense for these plans based on its allocated and/or direct salary costs in accordance with an expense allocation agreement. The Company's allocated share of the pension expense was \$3,704,930 and \$3,657,932 for 2017 and 2016, respectively.

2. Postretirement Benefit Plan:

The Company participates in a postretirement health and life insurance benefit plan sponsored by TRV for employees of the Company and its property-casualty affiliates that satisfy certain age and service requirements and for certain retirees. The Company has no legal obligation for benefits under this plan. The Company is charged for its allocable share of postretirement benefit expense for this plan based on its allocated and/or direct salary costs in accordance with an expense allocation agreement. The Company's allocated share of the postretirement benefit expense was \$102,072 and \$126,826 for 2017 and 2016, respectively.

13. CAPITAL AND SURPLUS, DIVIDEND RESTRICTIONS AND QUASI-REORGANIZATIONS

The Company has 2,000,000 shares of common capital stock authorized and 1,408,563 shares of common stock issued and outstanding with a par value of \$25 per share.

The Company paid ordinary dividends of \$129.6 million in 2017, to its parent company, Fire and Marine. In 2016, the Company paid ordinary dividends of \$284 million and extraordinary dividends of \$216 million for a total of \$500 million to Fire and Marine.

Dividends to shareholders and the proportion of the profits of the Company that may be paid to shareholders are not limited by charter. The maximum amount of dividends which can be paid by the Company to shareholders without prior approval of the Insurance Commissioner of the State of Connecticut is subject to restrictions relating to statutory surplus or net income. The maximum amount of dividends to shareholders that can be made during 2018 without prior approval is \$98,582,096.

There are no restrictions on the use of the Company's unassigned funds and such funds are held for the benefit of the shareholder, except for the dividend restrictions indicated above.

The change in the balance of special surplus from retroactive reinsurance is a result of ongoing activity occurring in 2017. See Note 23F for additional detail.

Unassigned funds have been increased by cumulative net unrealized gains of \$3,875,062.

14. LIABILITIES, CONTINGENCIES AND ASSESSMENTS

A. Contingent Commitments:

Not applicable.

B. Assessments:

1. The Company has accrued liabilities of \$10.2 million for guaranty fund and other insurance-related assessments and related recoverables of \$312 thousand at December 31, 2017. The assessments are expected to be paid over a period ranging from one year to the life expectancy of certain workers' compensation claimants and the recoverables are expected to occur over the same period of time.

d. Assets recognized from paid and accrued premium tax offsets December 31, 2017	<u>\$ 179,518</u>

3. Not applicable.

C. Gain Contingencies:

On August 17, 2010, in a reinsurance dispute in New York state court captioned *United States Fidelity & Guaranty Company v. American Re-Insurance Company, et al.*, the trial court granted summary judgment for the Company and denied summary judgment for the reinsurers. The Court of Appeals largely affirmed the entry of summary judgment, but remanded two discrete issues for trial.

On November 7, 2016, the Company agreed to a settlement with one of the three defendants then remaining in this dispute. The Company received payment under the settlement in the fourth quarter of 2016 and, as a result, recognized a \$126 million pre-tax (\$82 million after-tax) gain in the fourth quarter. In connection with that settlement, the reinsurance recoverable balance related to this case was reduced from approximately \$238 million to approximately \$31 million.

At March 31, 2017, the claim related to the remaining defendants totaled \$71 million, comprising the \$31 million of reinsurance recoverable plus interest amounting to \$40 million as of that date. As the Company is a participant in the TRV Pool, the amounts recoverable from this claim are subject to participation percentages of the TRV Pool (See Note 26). Accordingly, the Company's respective TRV Pool participation share of the remaining \$31 million awarded by the court represents the amounts owed to and reported by the Company under the terms of the disputed reinsurance contract. The Company's respective Pool participation share of the interest that would be received as part of any judgment ultimately entered in favor of the Company was treated for accounting purposes as a gain contingency in accordance with SSAP No. 5R, *Liabilities, Contingencies and Impairment of Assets*, and accordingly was not recognized in the Company's statutory financial statements at such time.

On May 1, 2017, the Company agreed to a settlement of this dispute with the two remaining defendants, along with the settlement of several other disputes with these same parties. As a result of the settlement of all of these matters, the Company recorded an immaterial gain for the three months ended June 30, 2017, and the Company's respective Pool participation share of the \$31 million reinsurance recoverable was fully satisfied.

17. SALE, TRANSFER AND SERVICING OF FINANCIAL ASSETS AND EXTINGUISHMENTS OF LIABILITIES

A. Transfers of Receivables Reported as Sales:

Not applicable.

B. Transfer and Servicing of Financial Assets:

The Company engages in securities lending activities from which it generates net investment income from the lending of certain of its investments to other institutions for short periods of time. Borrowers of these securities provide collateral equal to at least 102% of the market value of the loaned securities plus accrued interest. This collateral is held by a third party custodian, and the Company has the right to access the collateral only in the event that the institution borrowing the Company's securities is in default under the lending agreement. The loaned securities remain a recorded asset of the Company. The Company accepts only cash as collateral for securities on loan and restricts the manner in which that cash is invested to U.S. Treasury securities and U.S. Treasury repurchase agreements. These securities typically have a duration of 1 day. See Schedule D – Part 1 for identification and description of securities on loan.

NOTES TO FINANCIAL STATEMENTS**20. FAIR VALUE MEASUREMENTS**

The Company's estimates of fair value for financial assets and financial liabilities are based on the framework established in the fair value accounting guidance. The framework is based on the inputs used in valuation, gives the highest priority to quoted prices in active markets, and requires that observable inputs be used in the valuations when available. The disclosure of fair value estimates in the fair value accounting guidance hierarchy is based on whether the significant inputs into the valuation are observable. In determining the level of the hierarchy in which the estimate is disclosed, the highest priority is given to unadjusted quoted prices in active markets and the lowest priority to unobservable inputs that reflect the Company's significant market assumptions. The level in the fair value hierarchy within which the fair value measurement is reported is based on the lowest level input that is significant to the measurement in its entirety. The three levels of the hierarchy are as follows:

- Level 1 - Unadjusted quoted market prices for identical assets or liabilities in active markets that the Company has the ability to access.
- Level 2 - Quoted prices for similar assets or liabilities in active markets; quoted prices for identical or similar assets or liabilities in inactive markets; or valuations based on models where the significant inputs are observable (e.g., interest rates, yield curves, prepayment speeds, default rates, loss severities, etc.) or can be corroborated by observable market data.
- Level 3 - Valuations based on models where significant inputs are not observable. The unobservable inputs reflect the Company's own assumptions about the inputs that market participants would use.

4. Level 2 and Level 3 valuation techniques:

The fair values of the bonds and preferred stock in part 1 above are determined by the Company in accordance with NAIC guidelines. These securities are generally priced by the SVO or by a third party organization.

The Company holds unaffiliated common stock where the fair value estimate is determined by an internal portfolio manager based on recent filings, operating results, balance sheet stability, growth and other business and market sector fundamentals. Due to the significant unobservable inputs in these valuations, the Company includes the total fair value estimate for all of these investments in Level 3.

F. Subprime Mortgage Related Risk Exposure:

The Company defines subprime mortgage-backed securities as investments which generally contain a majority of loans to borrowers that exhibit one or more of the following characteristics at the time of issuance:

- Low FICO scores,
- Above prime interest rates,
- High loan-to-value ratios,
- High debt-to-income ratios,
- Low loan documentation (e.g. limited or no verification of income and assets), or
- Other characteristics that are inconsistent with conventional underwriting standards employed by government sponsored mortgage entities.

In addition, because of their high loan-to-value ratios, the Company has categorized second-lien mortgage-backed securities as subprime, regardless of the credit characteristics of the borrower on the underlying mortgage.

The Company reviews the credit characteristics of the loans that back these mortgage-backed securities when making the determination to categorize them as subprime exposure. Since the primary purpose of the investment portfolio is to fund future claim payments, the Company employs a conservative investment philosophy. In applying this philosophy to structured securities, including subprime mortgage-backed securities, the Company favors the purchase of senior credit tranches over junior or leveraged credit tranches.

Overall exposure to subprime mortgage-backed securities is sufficiently small in that the Company would likely have other securities available for liquidity needs. The Company utilizes discounted cash flow valuation analysis in its regular, ongoing review of its existing subprime mortgage portfolio, as well as in its analysis of subprime mortgage-backed bonds for purchase. Based upon the credit performance of mortgages within each securitization, the Company projects voluntary prepayments, defaults and loss severity to estimate any expected losses.

Direct exposure through other investments:

24. RETROSPECTIVELY RATED CONTRACTS AND CONTRACTS SUBJECT TO REDETERMINATION

A. Accrued retrospective premiums (Page 2, Line 15.3) have been determined based upon loss experience on business subject to such experience rating adjustment. Accrued retrospectively rated premiums, including all of those relating to bulk IBNR, have been determined by or allocated to individual policyholder accounts. Ten percent of the amount not offset by retrospective return premiums, other liabilities to the same party (other than loss and LAE reserves), or collateral as permitted by SSAP No. 66, Retrospectively Rated Contracts, has been nonadmitted. The amount shown in Part E below is the Company's proportionate share of the accrued retrospective premiums of the TRV Pool (see Note 26).

B. The Company records accrued retrospective premium as an adjustment to earned premium.

F. Not applicable.

25. CHANGES IN INCURRED LOSSES AND LOSS ADJUSTMENT EXPENSES

During the period from December 31, 2016 to December 31, 2017, the prior year-end total loss and LAE reserves developed favorably by \$23,184,000, resulting from better than expected loss and defense and cost containment development primarily in the workers' compensation, other liability – occurrence and commercial multiple peril (excluding asbestos and environmental reserves) lines. This favorable development was partially offset by unfavorable development in the commercial auto liability line and by funding of asbestos and environmental reserves, primarily in the other liability – occurrence and products liability – occurrence lines.

The improvement was driven by better than expected loss experience in (i) the workers' compensation line for multiple accident years, (ii) the other liability – occurrence line for both primary and excess coverages for multiple accident years and (iii) the commercial multiple peril line for liability coverages for multiple accident years (excluding asbestos and environmental reserves). Unfavorable development in the commercial auto liability line was driven by higher than expected loss experience for accident years 2013 through 2016.

Excluding asbestos and environmental reserves and other runoff exposures, favorable development in adjusting and other expense reserves was primarily driven by the allocation of adjusting and other expense reserves by year as disclosed in the Schedule P Interrogatories of the Company. This favorable development was fully offset by unfavorable development for asbestos and environmental and other runoff exposures, primarily in "Prior" accident years.

The remaining changes are generally the result of ongoing analyses of recent loss data and trends. A portion of the change from prior year effects relates to retrospectively rated policies which are subject to premium adjustments.

26. INTERCOMPANY POOLING ARRANGEMENTS

The Company is a participant in the TRV Pool, an intercompany pooling arrangement. The lead company of the TRV Pool is Indemnity. Under the terms of the arrangement, the property-casualty underwriting risks for substantially all lines of business of the intercompany pool participants are reinsured with Indemnity. The pool of net underwriting risks remaining after reinsurance is transacted with third parties by Indemnity is then retroceded to the pool participants based on pool participation percentages. The provision for reinsurance and the write-off of uncollectible reinsurance are reported in the statutory financial statements of Indemnity and are not allocated to the other pool participants.

The names, NAIC company codes and intercompany pool percentages of the companies participating in the TRV Pool are as follows:

<u>TRV Pool Participant</u>	NAIC Company Code	Pool Participation %

All of the above TRV Pool companies are party to reinsurance agreements with non-affiliated reinsurers covering business subject to the pooling agreement and have contractual rights of direct recovery from the non-affiliated reinsurers under the terms of such reinsurance agreements.

As of December 31, 2017 the Company had a net receivable of \$11,741,089 from affiliates as a result of its intercompany pooling transactions which settled in January 2018.

27. STRUCTURED SETTLEMENTS

The Company has purchased annuities from life insurance companies, under which the claimant is the payee and the Company is contingently liable as the owner of the annuity contract, to fund structured settlements. These annuity contracts are now the direct responsibility of the life insurance companies from whom they have been purchased and claims settled by the purchase of such annuity contracts are treated as closed claims. In the event that the life insurance company fails to make the required annuity payments, the Company would be required to make such payments if and to the extent the purchased annuities are not covered by state guaranty associations.

The following data represents the Company's proportionate share of structured settlement annuities purchased by members of the TRV Pool (see Note 26):

32. DISCOUNTING OF LIABILITIES FOR UNPAID LOSSES OR UNPAID LOSS ADJUSTMENT EXPENSES**A. The Company establishes and reports tabular workers' compensation case reserves consistent with statistical reporting requirements, as described below. The total reserve (case plus IBNR/Bulk) for these claims is consistent with the Company's own evaluation of the ultimate payout and a 5% discount rate.**

Except for certain third party administered claims, tabular workers' compensation case reserves have been discounted in accordance with state approved workers' compensation statistical plans. The tabular case reserves, as included in Schedule P, reflect a discount rate of 3.5% or as specified by state requirements, generally using the following United States Life Tables:

Non-Fatal Cases: United States Life Tables Total Population 2007 – FL
United States Life Tables Total Male or Total Female 2009 – MN
United States Life Tables Total Male or Total Female 2011 – MA
United States Life Tables Total Male or Total Female Population 1999 – MA(USL)
United States Life Tables Total Male or Total Female 2007 – all other states

Fatal Cases: New York Mandated Mortality & Remarriage Table – NY
United States Life Tables Total Female 2009 – MN **
United States Life Tables Total Female 2011 – MA **
United States Life Tables Total Female 1999 – MA(USL) *
* and the 1980 Railroad Retirement Board Remarriage Table
United States Life Tables Total Female 2007 – all other states **
** and the 1997 Railroad Retirement Board Remarriage Table

Other liability reserves related to annuity obligations from structured settlements are discounted using a discount rate of 5% and reflect the 1983 Individual Annuity Mortality table adjusted for impairment and future mortality improvement.

The Company develops loss reserve estimates for workers' compensation tabular claims that are expectations of what the ultimate settlement costs for these claims will be upon final resolution in the future. These estimates are based on the Company's assessment of facts and circumstances currently known and, using Company experience, multiple actuarial estimation methods. This includes estimates of payment patterns reflecting actual mortality, morbidity and settlement history that relate both to claims currently identified as tabular as well as claims not yet identified as tabular ("IBNR" tabular).

The total reserves and the corresponding discount that the Company has established for these claims reflects these multiple estimation methods, payment patterns and a discount rate of 5%. The liabilities and discount amounts shown below reflect estimates of the ultimate liability for tabular claims. Furthermore, the case vs. IBNR discount amounts shown below each reflects estimates of the ultimate resolution costs for these claims: case amounts for claims already identified as tabular; IBNR amounts for claims yet to be identified as tabular.

NOTES TO FINANCIAL STATEMENTS

The December 31, 2017 liabilities of the Company included \$89,682,992 and \$4,618,156 of such discounted liabilities related to workers' compensation and other liability-occurrence reserves, respectively. The amount of discount for case and IBNR reserves at December 31, 2017 is as follows:

33. ASBESTOS/ENVIRONMENTAL RESERVES

The following represents the Company's allocable share of the pooled property-casualty business of the TRV Pool, based on its pro rata participation percentage of 4.41%.

A. Does the Company have on the books or has it ever written an insured for which you have identified a potential for the existence of a liability due to asbestos losses? Yes (X) No ()

Exposure for asbestos losses arises from liability coverage written many years ago. The exposures include bodily injury and property damage losses.

Because each policyholder presents different liability and coverage issues, the Company generally reviews the exposure presented by each policyholder at least annually. Among the factors which the Company may consider in the course of this review are: available insurance coverage, including the role of any umbrella or excess insurance the Company has issued to the policyholder; limits and deductibles; an analysis of the policyholder's potential liability; the jurisdictions involved; past and anticipated future claim activity and loss development on pending claims; past settlement values of similar claims; allocated claim adjustment expense; potential role of other insurance; the role, if any, of non-asbestos claims or potential non-asbestos claims in any resolution process; and applicable coverage defenses or determinations, if any, including the determination as to whether or not an asbestos claim is a products/completed operation claim subject to an aggregate limit and the available coverage, if any, for that claim.

The Company continues to be involved in coverage litigation concerning a number of policyholders, some of whom have filed for bankruptcy, who in some instances have asserted that all or a portion of their asbestos-related claims are not subject to aggregate limits on coverage. In these instances, policyholders also may assert that each individual bodily injury claim should be treated as a separate occurrence under the policy. It is difficult to predict whether these policyholders will be successful on both issues. To the extent both issues are resolved in a policyholder's favor and other Company defenses are not successful, the Company's coverage obligations under the policies at issue would be materially increased and bounded only by the applicable per-occurrence limits and the number of asbestos bodily injury claims against the policyholders. Although the Company has seen a reduction in the overall risk associated with these lawsuits, it remains difficult to predict the ultimate cost of these claims.

The Company's quarterly asbestos reserve reviews include an analysis of exposure and claim payment patterns by policyholder category, as well as recent settlements, policyholder bankruptcies, judicial rulings and legislative actions. The Company also analyzes developing payment patterns among policyholders as well as projected reinsurance billings and recoveries. In addition, the Company reviews its historical gross and net loss and expense paid experience, year-by-year, to assess any emerging trends, fluctuations, or characteristics suggested by the aggregate paid activity. Conventional actuarial methods are not utilized to establish asbestos reserves nor have the Company's evaluations resulted in any way of determining a meaningful average asbestos defense or indemnity payment.

In January 2015, pursuant to an order issued by a federal bankruptcy court, Travelers Property Casualty Corp. (TPC) made a payment in the amount of \$579 million for the settlement of litigation that had commenced in 2001 and 2002 related to the handling and settlement of asbestos claims and the alleged violation of purported common law duties to third parties. The payment was comprised of the \$502 million settlement amount, plus pre-judgment and post-judgment interest totaling \$77 million. The Company's allocable share of the 2015 payment of the settlement amount resulted in a \$22.2 million direct payment and a \$21.1 million net payment for asbestos.

In January 2009, TPC and PPG Industries, Inc. (PPG), along with approximately 30 other insurers of PPG agreed in principle to settle asbestos-related coverage litigation under insurance policies issued to PPG (the Agreement). The Agreement was incorporated into the Modified Third Amended Plan of Reorganization (Amended Plan) proposed as part of the Pittsburgh Corning Corp. (which is 50% owned by PPG) bankruptcy proceeding. In January 2016, the remaining objections to the Amended Plan were dismissed and in the second quarter of 2016, TPC fully satisfied its obligation under the Agreement by making payments totaling \$524 million, of which \$518 million was related to asbestos reserves. The Company's allocable share of the 2016 payments resulted in a \$22.8 million direct payment and a \$20.1 million net payment for asbestos.

D. Does the Company have on the books or has it ever written an insured for which you have identified a potential for the existence of a liability due to environmental losses? Yes (X) No ()

Exposure for environmental losses arises from liability coverage written many years ago. The exposures include bodily injury and property damage losses.

The resolution of environmental exposures by the Company generally occurs through settlements with policyholders as opposed to claimants. Generally, the Company strives to extinguish any obligations it may have under any policy issued to the policyholder for past, present and future environmental liabilities and extinguish any pending coverage litigation dispute with the policyholder. This form of settlement is commonly referred to as a "buy-back" of policies for future environmental liability. In addition, many of the agreements have also extinguished any insurance obligation which the Company may have for other claims, including but not limited to asbestos and other cumulative injury claims. The Company and its policyholders may also agree to settlements which extinguish any liability arising from known specified sites or claims. Where appropriate, these agreements also include indemnities and hold harmless provisions to protect the Company. The Company's general purpose in executing these agreements is to reduce the Company's potential environmental exposure and eliminate the risks presented by coverage litigation with the policyholder and related costs.

In establishing environmental reserves, the Company evaluates the exposure presented by each policyholder and the anticipated cost of resolution, if any. In the course of this analysis, the Company generally considers the probable liability, available coverage and relevant judicial interpretations. In addition, the Company considers the many variables presented, such as: the nature of the alleged activities of the policyholder at each site; the number of sites; the total number of potentially responsible parties at each site; the nature of the alleged environmental harm and the corresponding remedy at each site; the nature of government enforcement activities at each site; the ownership and general use of each site; the overall nature of the insurance relationship between the Company and the policyholder, including the role of any umbrella or excess insurance the Company has issued to the policyholder; the involvement of other insurers; the potential for other available coverage, including the number of years of coverage; the role, if any, of non-environmental claims or potential non-environmental claims in any resolution process; and the applicable law in each jurisdiction. The evaluation of the exposure presented by a policyholder can change as information concerning that policyholder and the many variables presented is developed. Conventional actuarial methods are not used to estimate these reserves.

In its review of environmental reserves, the Company considers: past settlement payments; changing judicial and legislative trends; its reserves for the costs of litigating environmental coverage matters; the potential for policyholders with smaller exposures to be named in new clean-up actions for both on- and off-site waste disposal activities; the potential for adverse development; the potential for additional new claims beyond previous expectations; and the potential higher costs for new settlements.

The majority of the net environmental reserve is carried in a bulk reserve and included unresolved environmental claims, incurred but not reported environmental claims and the anticipated cost of coverage litigation disputes relating to these claims. The bulk reserve the Company carries is established and adjusted based upon the aggregate volume of in-process environmental claims and the Company's experience in resolving those claims. The balance of the net environmental reserve consists of case reserves.

NOTES TO FINANCIAL STATEMENTS

G. As a result of the processes and procedures discussed above, management believes that the reserves carried for asbestos and environmental claims are appropriately established based upon known facts, current law and management's judgment. However, the uncertainties surrounding the final resolution of these claims continue, and it is difficult to determine the ultimate exposure for asbestos and environmental claims and related litigation. As a result, these reserves are subject to revision as new information becomes available and as claims develop. The continuing uncertainties include, without limitation, the risks and lack of predictability inherent in complex litigation, any impact from the bankruptcy protection sought by various asbestos producers and other asbestos defendants, a further increase or decrease in the cost to resolve, and/or the number of, asbestos and environmental claims beyond that which is anticipated, the emergence of a greater number of asbestos claims than anticipated as a result of extended life expectancies resulting from medical advances and lifestyle improvements, the role of any umbrella or excess policies the Company has issued, the resolution or adjudication of disputes pertaining to the amount of available coverage for asbestos and environmental claims in a manner inconsistent with the Company's previous assessment of these claims, the number and outcome of direct actions against the Company, future developments pertaining to the Company's ability to recover reinsurance for asbestos and environmental claims and the unavailability of other insurance sources potentially available to policyholders, whether through exhaustion of policy limits or through the insolvency of other participating insurers. In addition, uncertainties arise from the insolvency or bankruptcy of policyholders and other defendants. It is also not possible to predict changes in the legal, regulatory and legislative environment and their impact on the future development of asbestos and environmental claims. This environment could be affected by changes in applicable legislation and future court and regulatory decisions and interpretations, including the outcome of legal challenges to legislative and/or judicial reforms establishing medical criteria for the pursuit of asbestos claims. It is also difficult to predict the ultimate outcome of complex coverage disputes until settlement negotiations near completion and significant legal questions are resolved or, failing settlement, until the dispute is adjudicated. This is particularly the case with policyholders in bankruptcy where negotiations often involve a large number of claimants and other parties and require court approval to be effective. As part of its continuing analysis of asbestos and environmental reserves, the Company continues to study the implications of these and other developments.

Because of the uncertainties set forth above, additional liabilities may arise for amounts in excess of the Company's current insurance reserves. In addition, the Company's estimate of claims and claim adjustment expenses may change. These additional liabilities or increases in estimates, or a range of either, cannot now be reasonably estimated and could result in income statement charges that could be material to the Company's operating results in future periods.

Facultative reinsurance purchases are also made as deemed appropriate.</u>				
6.2	Describe the method used to estimate this reporting entity's probable maximum insurance loss, and identify the type of insured exposures comprising that probable maximum loss, the locations of concentrations of those exposures and the external resources (such as consulting firms or computer software models), if any, used in the estimation process: <u>The Company uses various analyses and methods, including proprietary and third party computer modeling processes, to analyze catastrophic events and the associated risks to arrive at loss estimates. The Company uses these analyses and methods to make underwriting and reinsurance decisions designed to manage its exposure to catastrophic events. The Company's hurricane loss estimates for U.S. exposures include property exposures, property residual market exposures and an adjustment for certain non-property exposures. The Company's loss estimates are based on the Company's catastrophe risk model estimates and include loss from the hurricane hazards of wind and storm surge. The Company's loss estimates for earthquakes reflect U.S. exposures and include property exposures and workers' compensation exposures. The Company's loss estimates for terrorism reflect U.S. exposures and include property exposures. The Company also develops conventional attack loss estimates for combined property and workers' compensation exposures for comparison and adherence with aggregate enterprise guidelines. To best assess risk, the Company conducts site engineering analyses on buildings with large exposures. Property exposures are analyzed to determine locations of concentration. Spanning the U.S., this includes California, Florida, New Madrid, the Northeast, the Gulf States and the Mid-Atlantic States.</u>				

GENERAL INTERROGATORIES

PART 2 – PROPERTY & CASUALTY INTERROGATORIES

- 6.3 What provision has this reporting entity made (such as catastrophic reinsurance program) to protect itself from an excessive loss arising from the types and concentrations of insured exposures comprising its probable maximum property insurance loss?
The Company purchases both excess of loss and proportional reinsurance to protect itself from an excessive catastrophe loss.
- 6.4 Does the reporting entity carry catastrophe reinsurance protection for at least one reinstatement, in an amount sufficient to cover its estimated probable maximum loss attributable to a single loss event or occurrence? Yes [] No [X]
- 6.5 If no, describe any arrangements or mechanisms employed by the reporting entity to supplement its catastrophe reinsurance program or to hedge its exposure to unreinsured catastrophic loss:
The Company's all region aggregate catastrophe treaty does not contain a reinstatement provision but does allow for recoveries under multiple event loss scenarios. The Company's northeast region catastrophe treaty applies per occurrence and provides for one reinstatement. Additionally, the Company buys property catastrophe cat bonds for designated perils covering the northeast region. Those bonds apply per occurrence but do not have a reinstatement provision. The Company believes that its reinsurance programs along with the Company's surplus are adequate to cover its exposures in a catastrophic event.
- 7.1 Has the reporting entity reinsured any risk with any other entity under a quota share reinsurance contract that includes a provision that would limit the reinsurer's losses below the stated quota share percentage (e.g., a deductible, a loss ratio corridor, a loss cap, an aggregate limit or any similar provisions)? Yes [X] No []
- 7.2 If yes, indicate the number of reinsurance contracts containing such provisions. 7
- 7.3 If yes, does the amount of reinsurance credit taken reflect the reduction in quota share coverage caused by any applicable limiting provision(s)? Yes [X] No []
- 8.1 Has this reporting entity reinsured any risk with any other entity and agreed to release such entity from liability, in whole or in part, from any loss that may occur on this risk, or portion thereof, reinsured? Yes [] No [X]
- 8.2 If yes, give full information
- 9.1 Has the reporting entity ceded any risk under any reinsurance contract (or under multiple contracts with the same reinsurer or its affiliates) for which during the period covered by the statement: (i) it recorded a positive or negative underwriting result greater than 5% of prior year-end surplus as regards policyholders or it reported calendar year written premium ceded or year-end loss and loss expense reserves ceded greater than 5% of prior year-end surplus as regards policyholders; (ii) it accounted for that contract as reinsurance and not as a deposit; and (iii) the contract(s) contain one or more of the following features or other features that would have similar results:
- (a) A contract term longer than two years and the contract is noncancellable by the reporting entity during the contract term;
- (b) A limited or conditional cancellation provision under which cancellation triggers an obligation by the reporting entity, or an affiliate of the reporting entity, to enter into a new reinsurance contract with the reinsurer, or an affiliate of the reinsurer;
- (c) Aggregate stop loss reinsurance coverage;
- (d) A unilateral right by either party (or both parties) to commute the reinsurance contract, whether conditional or not, except for such provisions which are only triggered by a decline in the credit status of the other party;
- (e) A provision permitting reporting of losses, or payment of losses, less frequently than on a quarterly basis (unless there is no activity during the period); or
- (f) Payment schedule, accumulating retentions from multiple years or any features inherently designed to delay timing of the reimbursement to the ceding entity? Yes [] No [X]
- 9.2 Has the reporting entity during the period covered by the statement ceded any risk under any reinsurance contract (or under multiple contracts with the same reinsurer or its affiliates), for which, during the period covered by the statement, it recorded a positive or negative underwriting result greater than 5% of prior year-end surplus as regards policyholders or it reported calendar year written premium ceded or year-end loss and loss expense reserves ceded greater than 5% of prior year-end surplus as regards policyholders; excluding cessions to approved pooling arrangements or to captive insurance companies that are directly or indirectly controlling, controlled by, or under common control with (i) one or more unaffiliated policyholders of the reporting entity, or (ii) an association of which one or more unaffiliated policyholders of the reporting entity is a member where:
- (a) The written premium ceded to the reinsurer by the reporting entity or its affiliates represents fifty percent (50%) or more of the entire direct and assumed premium written by the reinsurer based on its most recently available financial statement; or
- (b) Twenty-five percent (25%) or more of the written premium ceded to the reinsurer has been retroceded back to the reporting entity or its affiliates in a separate reinsurance contract. Yes [] No [X]
- 9.3 If yes to 9.1 or 9.2, please provide the following information in the Reinsurance Summary Supplemental Filing for General Interrogatory 9:
- (a) The aggregate financial statement impact gross of all such ceded reinsurance contracts on the balance sheet and statement of income;
- (b) A summary of the reinsurance contract terms and indicate whether it applies to the contracts meeting the criteria in 9.1 or 9.2; and
- (c) A brief discussion of management's principle objectives in entering into the reinsurance contract including the economic purpose to be achieved.
- 9.4 Except for transactions meeting the requirements of paragraph 31 of SSAP No. 62R, *Property and Casualty Reinsurance*, has the reporting entity ceded any risk under any reinsurance contract (or multiple contracts with the same reinsurer or its affiliates) during the period covered by the financial statement, and either:
- (a) Accounted for that contract as reinsurance (either prospective or retroactive) under statutory accounting principles ("SAP") and as a deposit under generally accepted accounting principles ("GAAP"); or
- (b) Accounted for that contract as reinsurance under GAAP and as a deposit under SAP? Yes [] No [X]
- 9.5 If yes to 9.4, explain in the Reinsurance Summary Supplemental Filing for General Interrogatory 9 (Section D) why the contract(s) is treated differently for GAAP and SAP.
- 9.6 The reporting entity is exempt from the Reinsurance Attestation Supplement under one or more of the following criteria:
- (a) The entity does not utilize reinsurance; or, Yes [] No [X]
- (b) The entity only engages in a 100% quota share contract with an affiliate and the affiliated or lead company has filed an attestation supplement; or Yes [] No [X]
- (c) The entity has no external cessions and only participates in an intercompany pool and the affiliated or lead company has filed an attestation supplement. Yes [X] No []
10. If the reporting entity has assumed risks from another entity, there should be charged on account of such reinsurances a reserve equal to that which the original entity would have been required to charge had it retained the risks. Has this been done? Yes [X] No [] N/A []
- 11.1 Has the reporting entity guaranteed policies issued by any other entity and now in force? Yes [] No [X]
- 11.2 If yes, give full information
- 12.1 If the reporting entity recorded accrued retrospective premiums on insurance contracts on Line 15.3 of the assets schedule, Page 2, state the amount of corresponding liabilities recorded for:
